CALCUTTA, THE 23RD APRIL 1934.

RESOLUTION—No. 948 P.H.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1931.

Vital Statistics.—In the Public Health Report under review the census figures for 1931 have been used as the basis for calculating the relation of the vital statistics to the total population of Bengal, and the ratios recorded may, therefore, be regarded as representing a more accurate estimate of the incidence of births and deaths per thousand of population than was possible during the previous eight or nine years. But, while the census figures ensure the accuracy of the denominator, the numerator must still contain a considerable margin of error owing to the defective character of the annual returns, to which attention was again drawn in the last resolution. In addition, in any comparison which is made between the percentage in the year under review and in those immediately preceding it, the different degrees of accuracy in the two denominators must also be borne in mind.

In the year 1931 the total population of Bengal, excluding Indian States and the Chittagong Hill Tracts, was 49,901,080, which shows an increase of 3,378,787 over that recorded in the previous census. The increase was shared by all districts except Jessore and Rajshahi, in which, owing mainly to malaria, there was a decrease of 3·0 per cent. and 4·6 per cent., respectively. The greatest increase occurred in the south-eastern corner of Bengal, represented by Nonkhali (15·9 per cent.), Tippera (13·3 per cent.), Bakarganj (12·9 per cent.) and Chittagong (11·5 per cent.) and in the districts of Darjeeling (13 per cent.) and Murshidabad (12 per cent.).

The number of births recorded during 1931 was 1,388,219 against 1,237,931 in 1930 and the number of deaths 1,113,312 against 1,044,256. The births, therefore, exceeded the deaths by 274,907 as against an excess of 193,675 in 1930. It was only in Calcutta and the districts of Jessore and Pabna that the number of deaths exceeded the births; the other four districts which had shown a similar result in 1930, viz., Nadia, Malda, Rajshahi and Dinajpur, reported an excess of births over deaths in 1931. The birth rate increased from 26·6 per mille in 1930 to 27·8 per mille in 1931, while the death rate remained almost stationary.

Infant mortality.—2,41,552 infants under the age of one year died during 1931, an increase of 9,680 over the previous year, but this represents an actual decrease in the rate per thousand births from 187·3 to 174·0, the lowest recorded for many years. The improvement was shared by towns and rural areas alike, as the ratio in the former fell from 202·4 in 1930 to 187 in 1931 and that in rural areas from 186·5 to 173·3.

The progress made in maternity and child welfare work is not very encouraging. The number of dai training classes, which are conducted by district boards at the entire cost of Government, fell from 98 in 1930

to 94 in 1931 and the number of dais attending the classes decreased from 1,113 to 1,074. The district board of Rajshahi and the municipalities of Baniganj, Arambagh, Naihati, Bogra and Tangail failed to open the classes for which allotments were sanctioned.

Cholera.—Bengal was one of the three provinces which showed an increase over the previous year in the rate of deaths from cholera, and this rate was higher than in any other province.

The actual number of such deaths was 79,073 against 54,963 in the previous year or an increase of 33·3 per cent. It was, however, 11·1 per cent. less than the average of the previous quinquennium. Cholera alone accounted for 7·1 per cent. of the total deaths in the province. The provincial death rate from cholera was 1·6 per mille of population and this rate was exceeded in seven districts, the most notable of which were Pabna with 4·8 per mille and Dacca and Faridpur with 2·5 each. Eleven districts were able to report a decrease in the death rate from cholera as compared with 1930. As in previous years the preventive measures adopted took the form of inoculation and disinfection of sources of water supply, and efforts were made by means of lantern lectures and the distribution of leaflets and posters to impress upon the people the necessity of taking timely precautions.

The Public Health Department also assisted the local authorities whenever possible by lending the services of their officers to help to cope with local epidemics.

Small-pox.—There were 9,207 deaths from small-pox in 1931 as compared with 11,268 in 1930, showing a reduction of 66·7 per cent. The death rate in towns was ·59 per mille against 1·01 in 1930 and in rural areas ·15 per mille against ·19. Since 1928 when the epidemic which began in 1924 reached its climax, the incidence of small-pox has steadily declined and in 1931, it was responsible for only 0·8 per cent. of the total deaths in the province. The number of vaccinations performed during the year under review increased by 440,634 or 9·5 per cent. in the rural areas but decreased by 159,132 or 30·3 per cent. in urban areas as compared with those in the preceding year.

Malaria and Kala-azar.—There was a slight increase in the deaths from malaria as compared with those in the previous year, namely, 349,111 in 1931 against 336,879 in 1930. This represents a death rate from this cause of 7 per mille of population. The rate was heaviest in Malda, where it reached 22·8 per thousand, Nadia (20·5), Rajshahi (20·4), Jessore (18·4), Murshidabad (14·6), Pabna (12·1), Dinajpur (11·4) and Birbhum (11·0). The reduction in the fever indices in four of those districts, including Malda, suggests that the incidence of malaria may be decreasing in those areas but it is disquieting to read that compared with the previous year the indices show an increase in 21 districts and the death rate an increase in 14 districts. Ten thousand one hundred and ninety-nine deaths, representing ·20 per mille were ascribed to kala-azar in 1931 against 10,914 in 1930. The steady decrease in the number of cases treated, which was commented upon in the last resolution, was maintained in 1931, when there were 8,866 fewer cases than in 1930; although the reduction in the number of special treatment centres must be regarded as at any rate partly responsible for this decrease, it may be hoped without undue optimism that the figures reflect a real reduction in the prevalence of the disease.

Educational propaganda and publicity.—The continued popularity of the Publicity Branch of the Department, as demonstrated by the increasing demand for its staff and equipment is a gratifying feature of the year's report and arouses a reasonable expectation that the barrier of ignorance and indifference, presented by the mass of the population, which is one of the main obstacles to the improvement of public health conditions, will soon be broken down.

Public Health Engineering.—The Asansol Water Supply Scheme was completed during the year at a cost of Rs. 4,50,000. The system, now adopted for the first time, provides for the supply of water into small storage tanks, instead of direct into taps, so that the householder receives only the amount of water to which his rates entitle him; this naturally results in a more economical use of filtered water.

The total capital expenditure on water works and sewerage works during the year was Rs. 12,58,885 against Rs. 8,76,542 in the previous year. This included Rs. 4½ lakhs spent on the Bhatpara Sewerage Scheme which is still in progress.

Sketch projects for schemes of water supply, surface drainage and sewerage were prepared, the aggregate of the estimates amounting to Rs. 32 lakhs. By means of these sketch projects municipalities were able to consider their position and in many cases to make an advance towards the execution of the schemes. Unfortunately, however, progress is slow, owing to the general financial stringency in the province.

Detailed and miscellaneous schemes were also prepared involving estimates which amount to more than Rs. 11 lakhs.

Personal.—The last resolution made a reference to the invaluable services of Dr. Bentley, who finally retired from the post of Director of Public Health in June 1931. Dr. Khambata, who succeeded him, took over charge from 23rd February 1931 and was thus Director for the greater part of the year.

Mr. Griffin remained in charge of the office of Chief Engineer, Public Health Department.

The Minister desires to take this opportunity of once again expressing his appreciation of the services rendered by these two officers.

By order of the Government of Bengal
(Ministry of Public Health),

H. R. WILKINSON,
Secretary to the Government of Bengal.

ADDENDA AND CORRIGENDA.

Bengal Financial Rules, 1st Edition (Reprint), 1930.

Page 184.—*F. R. Appendix 4*.—Substitute the following for the existing preamble “(These rules are rules..... as a Commercial Department)” :—

“*Note*.—The rules in this appendix are rules of accounts classification issued by the Auditor-General under his statutory powers and are, therefore, binding on all Governments in India; but a Local Government has, in respect of these rules, the power to decide whether a particular department or undertaking should be regarded as a Commercial Department.

It is within the powers of a local Government to declare Government Printing or any undertaking carried out by a department, such as a Jail Printing Press, to be a commercial department despite the fact that Government Printing and Jails are included in the rules of this Appendix as instances of Public Service Department. The sanction of the Auditor-General will, however, be necessary before the rules in Chapter 2 of the Account Code, relating to the general principles of accounts of Government commercial undertakings can be applied to such departments; see Rule I under Article 29 of the Account Code.”

Page 184.—*F. R. Appendix 4*.—Substitute the words “charged for” for the words “changed for” in Rule III as amended by correction slip No. 184, dated the 10th March 1933.

Page 184.—*F. R. Appendix 4*.—Insert the following at the end of the 1st sub-paragraph of rule III:—

“(See also rule 2 of F. R. Appendix 3).”

Page 184.—*F. R. Appendix 4*.—Insert the following as a note below the 1st sub-paragraph of rule III:—

“*Note*.—In the case of a department or of an undertaking in which non-commercial and commercial activities are intermingled, the accounts of the commercial and non-commercial activities should be disentangled, and this rule, including the provisions of sub-rule 2 below, should be applied to those activities only which are regarded as commercial. For example, although the Forest Department is treated as a commercial department, the principle of charging rent for accommodation supplied by the Public Works Department (see sub-rule 2 below) should not be applied to the Forest Research Institute and College, Dehra Dun, as the function of that institution is to carry on research work and to train men for service in the Forest Department, and nothing is manufactured in the institution for a commercial purpose nor is a commercial system of accounts maintained.”

Page 184.—F. R. Appendix 4.—Rule III.
—Number the existing sub-paragraph as sub-rule 1 and insert the following as sub-rule 2:—

“2. Rent should be charged for office accommodation supplied by the Public Works Department, to commercial departments, Government commercial undertakings and other Governments. The rates to be charged for 100 square feet of accommodation occupied may be fixed by the Public Works Department according to the local rates.”

Note.—The above principle also applies to residential buildings supplied by the Public Works Department to Government servants employed in commercial departments for occupation free of rent, or at a concessional rates whereby the commercial departments will be liable to pay the full assessed rent at the rate prevailing in the locality for a building of similar class and amenities, or the difference between the assessed rent and the rent actually recovered from their employees, as the case may be.

The same principle is also applicable in the case of residential buildings owned by the Government of Bengal but occupied by an officer under the administrative control of another Government except that the rent in such cases will be assessed under Fundamental Rule 45B irrespective of whether the rent is more or less than the prevailing rent in the locality.

“*Exception.*—A local Government may, in regard to individual commercial departments or undertakings, relax, at their discretion, the provisions of this sub-rule, and the similar rule contained in the Note thereunder.”

Page 185.—F. R. Appendix 4.—Insert the following as a note below rule IV:—

“*Note.*—The cost of forms obtained by the Forest, Jail Manufacture and Cinchona Departments from the Bengal Press and Forms Department and the Government of India Central Forms Stores will be adjusted under ‘46—Stationery and Printing’ but for the purpose of the *pro forma* accounts of those departments, the administrative departments concerned will ascertain the actual cost from the Press and Forms Manager and from the invoices of the Government of India Central Forms Stores.”

Page 185.—F. R. Appendix 4.—Insert the words “Government commercial undertakings” at the end of rule V.

Page 185.—F. R. Appendix 4.—Rename the existing rule VII as VII(a) and insert the following as rule (b):—

“(b) In order to prevent undue exaggeration of the public revenue and expenditure, a store department which is systematically employed in supplying the requirements of another department should take the credits it receives by deduction from its expenditure on stores and not by credit to receipts.”

Page 185.—F. R. Appendix 4.—Insert the following as rule IX:—

“IX. All payments of amounts due by one public department to another should be made by book transfers, except when such transfers do not suit the methods of account or of business adopted by the receiving department.

Note 1.—Payments for Reuter's and Indian News Agency messages supplied to high officials and Government departments should be made by cheques drawn on the Imperial Bank of India in favour of the Accounts Officer, Telegraph Check office, Calcutta. Where, however, this is not possible, the payment should be made by Remittance Transfer Receipts or demand draft at par without stamp duty, marked “Government Account”. See Article 168, Civil Account Code, Volume I, and the note thereunder.”

Page 185.—F. R. Appendix 4.—Insert the following at the end of the note to rule VI:—

“The Accountant-General, Central Revenues, will raise the necessary debit in his exchange account with the Account Officer concerned.”

M. A. JAAFAR, *Inspector of Schools*

Medical College, Calcutta.**Rules for the guidance of students seeking admission into the Medical College, Calcutta.**

1. Two classes of students are admitted to the college:—

(1) *Civil pupils' class*.—Admission to this class is restricted to students, male or female, who were born within or whose parents are domiciled within the territorial jurisdiction of the Calcutta University. Three students are also eligible for admission from the Dacca University area and three from the Dacca Intermediate Board. Students from other provinces and from Indian States for whom places have been reserved are also eligible for admission to the college.

Only students who intend to take the M. B. examination of the Calcutta University are admitted to this class.

(2) *Military pupils' class*.—Only European or Anglo-Indian students are admitted to this class (see separate prospectus for military pupils whose admission is regulated by the Director-General, Indian Medical Service).

NOTE.—Casual students are not admitted. No students are admitted other than those in one or other of the above classes.

2. The minimum preliminary qualification for admission is the First Class Pass certificate of the I. Sc. examination of the Calcutta University with Physics, Chemistry and Mathematics or an examination recognised as equivalent to it. This rule may be relaxed in favour of Muhammadan students and such candidates having passed the said examination in the second division may be admitted, provided they are otherwise considered suitable, to make up the number allotted for the Muhammadan students. In assessing the claims of those eligible for admission special weight will be attached to proficiency in English.

3. (a) Female students qualified under rules 1 and 2 will be admitted to the college, provided there is a vacancy in the Swarnamoyee Hostel in which all female students must reside. For special reasons to be recorded in writing, the Principal may allow any female student to reside outside this Hostel.

(b) Female students studying in the college but belonging to provinces other than Bengal and not domiciled in Bengal will be permitted for accommodation in the Swarnamoyee Hostel.

4. The session commences with the summer term which begins on the 15th June and ends on the day before the commencement of the Durga Puja holidays. The winter term commences on the day after close of the Durga Puja holidays and ends on the 31st March.

5. All applications direct from new students in Bengal for admission to the college should be accompanied by a fee of Rs. 4 which will not be refunded.

All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form, available in his office before the 25th May except in the following cases:—

(a) Students from other provinces for which places are reserved should apply to the Inspector-General, Civil Hospitals, of those provinces for admission within such dates as that officer may prescribe.

(b) The candidates from Indian States will be nominated by the States themselves.

(c) Students from the Dacca University area will be selected as follows:—

- (i) Three students will be selected by the Dacca University, and
- (ii) Three students by the Chairman of the Dacca Intermediate and Secondary Education Board.

6. The number of civil students to be admitted each year is 105. Vacancies are allotted as follows:—

Other provinces and Indian States	8
Dacca	6
Surgeon-General's nominees	3
Women	5
Muhammadan	21
Others	62

Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Selection Committee appointed by Government.

(a) Besides the students nominated by the Indian States under rule 5 (b), one student will be nominated by the Inspector-General of Civil Hospitals, Central Provinces, six students (including one female student) by the Inspector-General, Civil Hospitals, Assam, and six by the authorities mentioned in rule 5 (c).

These students must possess the qualifications mentioned in rule 2 and the nomination must reach the Principal, Medical College, Calcutta, before the 10th June each year, failing which the vacancies will be filled up with local candidates. Vacancies arising by resignation or otherwise in places filled by reservation for the authorities in paragraph (a) cannot be filled again by those authorities during the year.

(b) Three seats shall be reserved annually for nomination by the Surgeon-General, provided the candidates fulfil the necessary educational and physical qualifications. These nominations shall ordinarily be made after the Selection Committee have made their choice under clause (c).

(c) The remaining vacancies shall be filled up by the Selection Committee specially appointed by Government from year to year. This Selection Committee will be the authority to select candidates belonging to Bengal.

(d) No candidate should be disqualified on the ground of physical unfitness unless he is examined and declared unfit by the majority of votes of members of the Medical profession on the Selection Committee.

(e) Any candidate who has—

- (i) endeavoured to enlist for his candidature the support of persons of influence or of Government officials,
- (ii) personally canvassed any member of the Selection Committee or on whose behalf anyone else has canvassed any such member,
- (iii) produced any letter of recommendation other than certificates from teachers or testimonials from persons under whom he has actually been employed,

shall be held to be disqualified for admission into the Medical College.

7. Of the total number of candidates nominated by the Selection Committee at least one-fourth should be Muhammadans, if a suitable number of qualified candidates belonging to that community can be obtained.

8. Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the rolls:—

	Rs.
Admission fee	25
Fees for summer term	100
Athletic Club fees	4
Caution money for Laboratory Practice	10
Total	139

Fees other than caution money once paid cannot be refunded except to those whose claim for refund is tenable under rule 17. The levy, accounting and disposal of caution money will be governed by the rules prescribed under Government order No. 1639Medl., dated the 24th May 1932.

9. Forms of application for admission will be issued from the 15th April and received up to the 25th May every year.

10. Failed students must apply for admission and pay the fees within the date prescribed by the Principal, otherwise their claim will lapse.

11. All civil students admitted after 1925-26 will pay Rs. 200 in two instalments, viz., Rs. 100 for the summer term and Rs. 100 for the winter term. They must also pay the annual Athletic Club fee of Rs. 4 (with the exception of female students) and any caution money due for attendance at practical classes along with the fees for their summer term. Fees once paid cannot be refunded except those whose claim for the refund is tenable under rule 17.

12. The fees for each term are to be paid in one instalment. The fees for the summer term are due (except from new students) on the 15th June and those for the winter term on the 1st November and must be paid together with athletic club fees, on those dates or on such later dates as the Principal may direct, after which a daily fine of annas four will be levied along with the fees on each defaulter. The names of students whose fees are more than 30 days overdue will be removed from the rolls of the college.

13. A student kept back in, or referred back to the class in which he was previously studying on account of his failure to appear at or pass any examination prescribed for promotion to the next higher class, will pay Rs. 50 each term until he passes the examination in question, after which he will pay fees on the full scale laid down in rule 11.

14. The fee for certificates issued to civil students leaving the college before completing their study shall be Rs. 40 for each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

[In calculating the sum to be paid under this rule the amount of college fees paid by the student (or in the case of a student enjoying a stipendiary scholarship and free tuition the amount of which would have been paid by him had he been a paying student) shall be deducted.]

15. Students who fail to appear at or to pass the Final M. B. Examination shall immediately on readmission after failure, pay fees each term at the rate of Rs. 25 for each of the subjects in which they are to appear at the subsequent examination.

16. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

17. Students who hold scholarships awarded by the Government of Bengal or Government scholarships awarded by the Board of Intermediate and Secondary Education, Dacca, are not required to pay the annual fee of Rs. 200 for the year in which they hold such scholarships if they are natives of Bengal or if their parents are domiciled in Bengal. L. A. BILL No. 27 OF 1934.

A Bill to give effect in British India to a Convention for the unification of certain rules relating to international carriage by air.

WHEREAS a Convention for the unification of certain rules relating to international carriage by air (hereinafter referred to as the Convention) was, on the 12th day of October, 1929, signed at Warsaw;

AND WHEREAS it is expedient that British India should accede to the Convention and should make provision for giving effect to the said Convention in British India;

AND WHEREAS it is also expedient to make provision for applying the rules contained in the Convention (subject to exceptions, adaptations and modifications) to carriage by air in British India which is not international carriage within the meaning of the Convention;

It is hereby enacted as follows:—

Short title,
extent and
commencement.

1. (1) This Act may be called the Indian Carriage by Air Act, 1934.

(2) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Application of
the Convention
to British India.

2. (1) The rules contained in the First Schedule, being the provisions of the Convention relating to the rights and liabilities of carriers, passengers, consignors, consignees and other persons, shall, subject to the provisions of this Act, have the force of law in British India in relation to any carriage by air to which those rules apply, irrespective of the nationality of the aircraft performing the carriage.

(2) The Governor General in Council may, by notification in the Gazette of India, certify who are the High Contracting Parties to the Convention, in respect of what territories they are parties, and to what extent they have availed themselves of the Additional Protocol to the Convention, and any such notification shall be conclusive evidence of the matters certified therein.

(3) Any reference in the First Schedule to the territory of any High Contracting Party to the Convention shall be construed as a reference to all the territories in respect of which he is a party.

(4) Notwithstanding anything contained in the Indian Fatal Accidents Act, 1855, or any other enactment or rule of law in force in any part of British India, the rules contained in the First Schedule shall, in all cases to which those rules apply, determine the liability of a carrier in respect of the death of a passenger, and the rules contained in the Second Schedule shall determine the persons by whom and for whose benefit and the manner in which such liability may be enforced.

XIII of
1855.

(5) Any sum in francs mentioned in rule 22 of the First Schedule shall, for the purpose of any action against a carrier, be converted into rupees at the rate of exchange prevailing on the date on which the amount of damages to be paid by the carrier is ascertained by the Court.

Provisions
regarding suits
against High
Contracting
Parties who
undertake
carriage by air.

3. (1) Every High Contracting Party to the Convention who has not availed himself of the provisions of the Additional Protocol thereto shall, for the purposes of any suit brought in a Court in British India in accordance with the provisions of rule 28 of the First Schedule to enforce a claim in respect of carriage undertaken by him, be deemed to have submitted to the jurisdiction of that Court and to be a person for the purposes of the Code of Civil Procedure, 1908.

V of 1908.

(2) The High Court may make rules of procedure providing for all matters which may be expedient to enable such suits to be instituted and carried on.

(3) Nothing in this section shall authorise any Court to attach or sell any property of a High Contracting Party to the Convention.

Application of
Act to carriage
by air which is
not international.

4. The Governor General in Council may, by notification in the Gazette of India, apply the rules contained in the First Schedule and any provision of section 2 to such carriage by air, not being international carriage by air as defined in the First Schedule, as may be specified in the notification, subject however to such exceptions, adaptations and modifications, if any, as may be so specified.

FIRST SCHEDULE.

(See section 2.)

RULES.

CHAPTER I.

SCOPE—DEFINITIONS.

1. (1) These rules apply to all international carriage of persons, luggage or goods performed by aircraft for reward. They apply also to such carriage when performed gratuitously by an air transport undertaking.

(2) In these rules "High Contracting Party" means a High Contracting Party to the Convention.

(3) For the purposes of these rules the expression "international carriage" means any carriage in which, according to the contract made by the parties, the place of departure and the place of destination, whether or not there be a break in the carriage or a transshipment, are situated either within the territories of two High Contracting Parties, or within the territory of a single High Contracting Party, if there is an agreed stopping place within a territory subject to the sovereignty, suzerainty, mandate or authority of another Power, even though that Power is not a party to the Convention. A carriage without such an agreed stopping place between territories subject to the sovereignty, suzerainty, mandate or authority of the same High Contracting Party is not deemed to be international for the purposes of these rules.

(4) A carriage to be performed by several successive air carriers is deemed, for the purposes of these rules, to be one undivided carriage, if it has been regarded by the parties as a single operation, whether it had been agreed upon under the form of a single contract or of a series of contracts, and it does not lose its international character merely because one contract or a series of contracts is to be performed entirely within a territory subject to the sovereignty, suzerainty, mandate or authority of the same High Contracting Party.

2. (1) These rules apply to carriage performed by the State or by legally constituted public bodies provided it falls within the conditions laid down in rule 1.

(2) These rules do not apply to carriage performed under the terms of any international postal Convention.

CHAPTER II.

DOCUMENTS OF CARRIAGE.

Part I.—Passenger ticket.

3. (1) For the carriage of passengers the carrier must deliver a passenger ticket which shall contain the following particulars:—

- (a) the place and date of issue;
- (b) the place of departure and of destination;
- (c) the agreed stopping places, provided that the carrier may reserve the right to alter the stopping places in case of necessity, and that if he exercises that right, the alteration shall not have the effect of depriving the carriage of its international character;
- (d) the name and address of the carrier or carriers;
- (e) a statement that the carriage is subject to the rules relating to liability contained in this Schedule.

(2) The absence, irregularity or loss of the passenger ticket does not affect the existence or the validity of the contract of carriage, which shall none the less be subject to these rules. Nevertheless, if the carrier accepts a passenger without a passenger ticket having been delivered he shall not be entitled to avail himself of those provisions of this Schedule which exclude or limit his liability.

Part II.—Luggage ticket.

4. (1) For the carriage of luggage, other than small personal objects of which the passenger takes charge himself, the carrier must deliver a luggage ticket.

(2) The luggage ticket shall be made out in duplicate, one part for the passenger and the other part for the carrier.

(3) The luggage ticket shall contain the following particulars:—

- (a) the place and date of issue;
- (b) the place of departure and of destination;
- (c) the name and address of the carrier or carriers;
- (d) the number of the passenger ticket;
- (e) a statement that delivery of the luggage will be made to the bearer of the luggage ticket;
- (f) the number and weight of the packages;
- (g) the amount of the value declared in accordance with rule 22 (2);
- (h) a statement that the carriage is subject to the rules relating to liability contained in this Schedule.

(4) The absence, irregularity or loss of the luggage ticket does not affect the existence or the validity of the contract of carriage, which shall none the less be subject to these rules. Nevertheless, if the carrier accepts luggage without a luggage ticket having been delivered, or if the luggage ticket does not contain the particulars set out at (d), (f) and (h) of sub-rule (3), the carrier shall not be entitled to avail himself of those provisions of this Schedule which exclude or limit his liability.

Part III.—Air consignment note.

5. (1) Every carrier of goods has the right to require the consignor to make out and hand over to him a document called an "air consignment note"; every consignor has the right to require the carrier to accept this document.

(2) The absence, irregularity or loss of this document does not affect the existence or the validity of the contract of carriage which shall, subject to the provisions of rule 9, be none the less governed by these rules.

6. (1) The air consignment note shall be made out by the consignor in three original parts and be handed over with the goods.

(2) The first part shall be marked "for the carrier", and shall be signed by the consignor. The second part shall be marked "for the consignee"; it shall be signed by the consignor and by the carrier and shall accompany the goods. The third part shall be signed by the carrier and handed by him to the consignor after the goods have been accepted.

(3) The carrier shall sign an acceptance of the goods.

(4) The signature of the carrier may be stamped; that of the consignor may be printed or stamped.

(5) If, at the request of the consignor, the carrier makes out the air consignment note, he shall be deemed, subject to proof to the contrary, to have done so on behalf of the consignor.

7. The carrier of goods has the right to require the consignor to make out separate consignment notes when there is more than one package.

8. The air consignment note shall contain the following particulars:—

- (a) the place and date of its execution;
- (b) the place of departure and of destination;
- (c) the agreed stopping places, provided that the carrier may reserve the right to alter the stopping places in case of necessity, and that if he exercises that right the alteration shall not have the effect of depriving the carriage of its international character;
- (d) the name and address of the consignor;
- (e) the name and address of the first carrier;
- (f) the name and address of the consignee, if the case so requires;
- (g) the nature of the goods;
- (h) the number of the packages, the method of packing and the particular marks or numbers upon them;
- (i) the weight, the quantity and the volume or dimensions of the goods;
- (j) the apparent condition of the goods and of the packing;
- (k) the freight, if it has been agreed upon, the date and place of payment, and the person who is to pay it;
- (l) if the goods are sent for payment on delivery, the price of the goods, and, if the case so requires, the amount of the expenses incurred;
- (m) the amount of the value declared in accordance with rule 22 (2);
- (n) the number of parts of the air consignment note;
- (o) the documents handed to the carrier to accompany the air consignment note;
- (p) the time fixed for the completion of the carriage and a brief note of the route to be followed, if these matters have been agreed upon;
- (q) a statement that the carriage is subject to the rules relating to liability contained in this Schedule.

9. If the carrier accepts goods without an air consignment note having been made out, or if the air consignment note does not contain all the particulars set out in rule 8 (a) to (i) inclusive and (q), the carrier shall not be entitled to avail himself of the provisions of this Schedule which exclude or limit his liability.

10. (1) The consignor is responsible for the correctness of the particulars and statements relating to the goods which he inserts in the air consignment note.

(2) The consignor will be liable for all damage suffered by the carrier or any other person by reason of the irregularity, incorrectness or incompleteness of the said particulars and statements.

11. (1) The air consignment note is *prima facie* evidence of the conclusion of the contract, of the receipt of the goods and of the conditions of carriage.

(2) The statements in the air consignment note relating to the weight, dimensions and packing of the goods, as well as those relating to the number of packages, are *prima facie* evidence of the facts stated; those relating to the quantity, volume and condition of the goods do not constitute evidence against the carrier except so far as they both have been, and are stated in the air consignment note to have been, checked by him in the presence of the consignor, or relate to the apparent condition of the goods.

12. (1) Subject to his liability to carry out all his obligations under the contract of carriage, the consignor has the right to dispose of the goods by withdrawing them at the aerodrome of departure or destination, or by stopping them in the course of the journey on any landing, or by calling for them to be delivered at the place of destination or in the course of the journey to a person other than the consignee named in the air consignment note, or by requiring them to be returned to the aerodrome of departure. He must not exercise this right of disposition in such a way as to prejudice the carrier or other consignors and he must repay any expenses occasioned by the exercise of this right.

(2) If it is impossible to carry out the orders of the consignor the carrier must so inform him forthwith.

(3) If the carrier obeys the orders of the consignor for the disposition of the goods without requiring the production of the part of the air consignment note delivered to the latter, he will be liable, without prejudice to his right of recovery from the consignor, for any damage which may be caused thereby to any person who is lawfully in possession of that part of the air consignment note.

(4) The right conferred on the consignor ceases at the moment when that of the consignee begins in accordance with rule 13. Nevertheless, if the consignee declines to accept the consignment note or the goods, or if he cannot be communicated with, the consignor resumes his right of disposition.

13. (1) Except in the circumstances set out in rule 12, the consignee is entitled, on arrival of the goods at the place of destination, to require the carrier to hand over to him the air consignment note and to deliver the goods to him, on payment of the charges due and on complying with the conditions of carriage set out in the air consignment note.

(2) Unless it is otherwise agreed, it is the duty of the carrier to give notice to the consignee as soon as the goods arrive.

(3) If the carrier admits the loss of the goods, or if the goods have not arrived at the expiration of seven days after the date on which they ought to have arrived, the consignee is entitled to put into force against the carrier the rights which flow from the contract of carriage.

14. The consignor and the consignee can respectively enforce all the rights given them by rules 12 and 13, each in his own name, whether he is acting in his own interest or in the interest of another, provided that he carries out the obligations imposed by the contract.

15. (1) Rules 12, 13 and 14 do not affect either the relations of the consignor or the consignee with each other or the mutual relations of third parties whose rights are derived either from the consignor or from the consignee.

(2) The provisions of rules 12, 13 and 14 can only be varied by express provision in the air consignment note.

16. (1) The consignor must furnish such information and attach to the air consignment note such documents as are necessary to meet the formalities of customs, octroi or police before the goods can be delivered to the consignee. The consignor is liable to the carrier for any damage occasioned by the absence, insufficiency or irregularity of any such information or documents, unless the damage is due to the fault of the carrier or his agents.

(2) The carrier is under no obligation to enquire into the correctness or sufficiency of such information or documents.

CHAPTER III.

LIABILITY OF THE CARRIER.

17. The carrier is liable for damage sustained in the event of the death or wounding of a passenger or any other bodily injury suffered by a passenger, if the accident which caused the damage so sustained took place on board the aircraft or in the course of any of the operations of embarking or disembarking.

18. (1) The carrier is liable for damage sustained in the event of the destruction or loss of, or of damage to, any registered luggage or any goods, if the occurrence which caused the damage so sustained took place during the carriage by air.

(2) The carriage by air within the meaning of the preceding paragraph comprises the period during which the luggage or goods are in charge of the carrier, whether in an aerodrome or on board an aircraft, or, in the case of a landing outside an aerodrome, in any place whatsoever.

(3) The period of the carriage by air does not extend to any carriage by land, by sea or by river performed outside an aerodrome. If, however, such a carriage takes place in the performance of a contract for carriage by air, for the purpose of loading, delivery or transshipment, any damage is presumed, subject to proof to the contrary, to have been the result of an event which took place during the carriage by air.

19. The carrier is liable for damage occasioned by delay in the carriage by air of passengers, luggage or goods.

20. (1) The carrier is not liable if he proves that he and his agents have taken all necessary measures to avoid the damage or that it was impossible for him or them to take such measures.

(2) In the carriage of goods and luggage the carrier is not liable if he proves that the damage was occasioned by negligent pilotage or negligence in the handling of the aircraft or in navigation and that, in all other respects, he and his agents have taken all necessary measures to avoid the damage.

21. If the carrier proves that the damage was caused by or contributed to by the negligence of the injured person the Court may exonerate the carrier wholly or partly from his liability.

22. (1) In the carriage of passengers the liability of the carrier for each passenger is limited to the sum of 125,000 francs. Where damages may be awarded in the form of periodical payments, the equivalent capital value of the said payments shall not exceed 125,000 francs. Nevertheless, by special contract, the carrier and the passenger may agree to a higher limit of liability.

(2) In the carriage of registered luggage and of goods, the liability of the carrier is limited to a sum of 250 francs per kilogram, unless the consignor has made, at the time when the package was handed over to the carrier, a special declaration of the value at delivery and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless he proves that that sum is greater than the actual value to the consignor at delivery.

(3) As regards objects of which the passenger takes charge himself the liability of the carrier is limited to 5,000 francs per passenger.

(4) The sums mentioned in this rule shall be deemed to refer to the French franc consisting of 65½ milligrams gold of millesimal fineness 900.

23. Any provision tending to relieve the carrier of liability or to fix a lower limit than that which is laid down in these rules shall be null and void, but the nullity of any such provision does not involve the nullity of the whole contract, which shall remain subject to the provisions of this Schedule.

24. (1) In the cases covered by rules 18 and 19 any action for damages, however founded, can only be brought subject to the conditions and limits set out in this Schedule.

(2) In the cases covered by rule 17 the provisions of sub-rule (1) also apply, without prejudice to the questions as to who are the persons who have the right to bring suit and what are their respective rights.

25. (1) The carrier shall not be entitled to avail himself of the provisions of this Schedule which exclude or limit his liability, if the damage is caused by his wilful misconduct or by such default on his part as is in the opinion of the Court equivalent to wilful misconduct.

(2) Similarly the carrier shall not be entitled to avail himself of the said provisions, if the damage is caused as aforesaid by any agent of the carrier acting within the scope of his employment.

26. (1) Receipt by the person entitled to delivery of luggage or goods without complaint is *prima facie* evidence that the same have been delivered in good condition and in accordance with the document of carriage.

(2) In the case of damage, the person entitled to delivery must complain to the carrier forthwith after the discovery of the damage, and, at the latest, within three days from the date of receipt in the case of luggage and seven days from the date of receipt in the case of goods. In the case of delay the complaint must be made at the latest within fourteen days from the date on which the luggage or goods have been placed at his disposal.

(3) Every complaint must be made in writing upon the document of carriage or by separate notice in writing despatched within the times aforesaid.

(4) Failing complaint within the times aforesaid, no action shall lie against the carrier, save in the case of fraud on his part.

27. In the case of the death of the person liable, an action for damages lies in accordance with these rules against those legally representing his estate.

28. An action for damages must be brought at the option of the plaintiff, either before the Court having jurisdiction where the carrier is ordinarily resident, or has his principal place of business, or has an establishment by which the contract has been made or before the Court having jurisdiction at the place of destination.

29. The right to damages shall be extinguished if an action is not brought within two years, reckoned from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the carriage stopped.

30. (1) In the case of carriage to be performed by various successive carriers and falling within the definition set out in sub-rule (4) of rule 1, each carrier who accepts passengers, luggage or goods is subjected to the rules set out in this Schedule, and is deemed to be one of the contracting parties to the contract of carriage in so far as the contract deals with that part of the carriage which is performed under his supervision.

(2) In the case of carriage of this nature, the passenger or his representative can take action only against the carrier who performed the carriage during which the accident or the delay occurred, save in the case where, by express agreement, the first carrier has assumed liability for the whole journey.

(3) As regards luggage or goods, the passenger or consignor will have a right of action against the first carrier, and the passenger or consignee who is entitled to delivery will have a right of action against the last carrier, and further, each may take action against the carrier who performed the carriage during which the destruction, loss, damage or delay took place. These carriers will be jointly and severally liable to the passenger or to the consignor or consignee.

CHAPTER IV.

PROVISIONS RELATING TO COMBINED CARRIAGE.

31. (1) In the case of combined carriage performed partly by air and partly by any other mode of carriage, the provisions of this Schedule apply only to the carriage by air, provided that the carriage by air falls within the terms of rule 1.

(2) Nothing in this Schedule shall prevent the parties in the case of combined carriage from inserting in the document of air carriage conditions relating to other modes of carriage, provided that the provisions of this Schedule are observed as regards the carriage by air.

CHAPTER V.

GENERAL AND FINAL PROVISIONS.

32. Any clause contained in the contract and all special agreements entered into before the damage occurred by which the parties purport to infringe the rules laid down by this Schedule, whether by deciding the law to be applied, or by altering the rules as to jurisdiction, shall be null and void. Nevertheless for the carriage of goods arbitration clauses are allowed, subject to these rules, if the arbitration is to take place in the territory of one of the High Contracting Parties within one of the jurisdictions referred to in rule 28.

33. Nothing contained in this Schedule shall prevent the carrier either from refusing to enter into any contract of carriage, or from making regulations which do not conflict with the provisions of this Schedule.

34. This Schedule does not apply to international carriage by air performed by way of experimental trial by air navigation undertakings with the view to the establishment of a regular line of air navigation, nor does it apply to carriage performed in extraordinary circumstances outside the normal scope of an air carrier's business.

35. The expression "days" when used in these rules means current days not working days.

36. When a High Contracting Party has declared at the time of ratification of or of accession to the Convention that the first paragraph of Article 2 of the Convention shall not apply to international carriage by air performed directly by the State, its colonies, protectorates or mandated territories or by any other territory under its sovereignty, suzerainty or authority, these rules shall not apply to international carriage by air so performed.

SECOND SCHEDULE.

(See section 2.)

PROVISIONS AS TO LIABILITY OF CARRIERS IN THE EVENT OF THE DEATH OF A PASSENGER.

1. The liability shall be enforceable for the benefit of such of the members of the passenger's family as sustained damage by reason of his death.

In this rule the expression "member of a family" means wife or husband, parent, step-parent, grand-parent, brother, sister, half-brother, half-sister, child, step-child, grandchild:

Provided that, in deducing any such relationship as aforesaid any illegitimate person and any adopted person shall be treated as being, or as having been, the legitimate child of his mother and reputed father or, as the case may be, of his adopters.

2. An action to enforce the liability may be brought by the personal representative of the passenger or by any person for whose benefit the liability is under the last preceding rule enforceable, but only one action shall be brought in British India in respect of the death of any one passenger, and every such action by whomsoever brought shall be for the benefit of all such persons so entitled as aforesaid as either are domiciled in British India, or, not being domiciled there, express a desire to take the benefit of the action.

3. Subject to the provisions of the next succeeding rule the amount recovered in any such action, after deducting any costs not recovered from the defendant, shall be divided between the persons entitled in such proportions as the Court may direct.

4. The Court before which any such action is brought may at any stage of the proceedings make any such order as appears to the Court to be just and equitable in view of the provisions of the First Schedule to this Act limiting the liability of a carrier and of any proceedings which have been, or are likely to be, commenced outside British India in respect of the death of the passenger in question.

STATEMENT OF OBJECTS AND REASONS.

An International Convention for the unification of certain rules relating to international carriage by air was signed at Warsaw in October, 1929, by certain Governments. The Convention defines the liability of air carriers for injury or damage caused to passengers or goods. The Convention was not signed on behalf of India, but its provisions have been examined by the Government of India and are, in their opinion, suitable to Indian conditions. They, therefore, propose to adhere to the Convention as soon as the requisite legislation to implement its provisions has been enacted. To that end they have framed the present Bill.

The Convention applies only in respect of international carriage by air, i.e., carriage between two States signatory to the Convention, but as there is no law on the subject in India, beyond the general law of contract and the law relating to carriers on land, the Bill seeks to provide power to the Governor General in Council to make rules extending the provisions of the Convention also to internal carriage by air.

Power of Governor General in Council to make rules for investigation of accidents.

7. (1) The Governor General in Council may, by notification in the Gazette of India, make rules providing for the investigation of any accident arising out of or in the course of air navigation in or over British India.

(2) Without prejudice to the generality of the foregoing power, such rules may—

- (a) require notice to be given of any accident in such manner and by such person as may be prescribed;
- (b) apply for the purposes of such investigation, either with or without modification, the provisions of any law for the time being in force relating to the investigation of accidents;
- (c) prohibit pending investigation access to or interference with aircraft to which an accident has occurred, and authorise any person so far as may be necessary for the purposes of an investigation to have access to, examine, remove, take measures for the preservation of, or otherwise deal with any such aircraft; and

- (d) authorise or require the cancellation, suspension, endorsement or surrender of any licence or certificate granted or recognised under this Act when it appears on an investigation that the licence ought to be so dealt with, and provide for the production of any such licence for such purpose.

Power to detain aircraft.

8. (1) Any authority authorised in this behalf by the Governor General in Council may detain any aircraft, if in the opinion of such authority—

- (a) having regard to the nature of an intended flight, the flight of such aircraft would involve danger to persons in the aircraft or to any other persons or property; or
- (b) such detention is necessary to secure compliance with any of the provisions of this Act or the rules applicable to such aircraft; or such detention is necessary to prevent a contravention of any rule made under clause (h) or clause (i) of sub-section (2) of section 5.

(2) The Governor General in Council may, by notification in the Gazette of India, make rules regulating all matters incidental or subsidiary to the exercise of this power.

Wreck and salvage.

9. (1) The provisions of Part VII of the Indian Merchant Shipping Act, 1923, relating to Wreck and Salvage shall apply to aircraft on or over the sea or tidal waters as they apply to ships, and the owner of an aircraft shall be entitled to a reasonable reward for salvage services rendered by the aircraft in like manner as the owner of a ship. XXI c 1923.

(2) The Governor General in Council may, by notification in the Gazette of India, make such modifications of the said provisions in their application to aircraft as appear necessary or expedient.

Penalty for act in contravention of rule made under this Act.

Use of patented invention on aircraft not required in British India.

15. The provisions of section 42 of the Indian Patents and Designs Act, 1911, shall apply to the use of an invention on any aircraft not registered in British India in like manner as they apply to the use of an invention in a foreign vessel. II of 1911.

Saving of application of Act.

19. (1) Nothing in this Act or in any order or rule made thereunder shall apply to or in respect of any aircraft belonging to or exclusively employed in His Majesty's naval, military or air forces, or to any person in such forces employed in connection with such aircraft.

(2) Nothing in this Act or in any order or rule made thereunder shall apply to or in respect of any lighthouse to which the Indian Lighthouse Act, 1927, applies or prejudice or affect any right or power exercisable by any authority under that Act. XVII of 1927.

Repeals.

20. The Indian Aircraft Act, 1911, the entry relating thereto in the First Schedule to the Repealing and Amending Act, 1914, and the Indian Aircraft (Amendment) Act, 1914, are hereby repealed. XVII of 1911, X of 1914, XVI of 1914.

STATEMENT OF OBJECTS AND REASONS.

Aerial navigation in British India is at present governed by the Indian Aircraft Act, 1911, and the rules made thereunder. In 1919 an International Convention for the regulation of Aerial Navigation was signed by the plenipotentiaries of 27 countries, with the object of establishing regulations of universal application and of encouraging peaceful intercourse with nations by means of aerial communications. To this Convention India was a signatory. The Convention deals with all questions relating to international aerial navigation, and also provides for the institution of a permanent International Commission for Air Navigation, with very wide powers as regards the formulation of rules for the marking of aircraft, the grant of certificates, rules of the air and so forth. This Commission meets from time to time to amend the annexes of the Convention, which contain the detailed rules to be observed by the aircraft of all signatory States and by all aircraft when within the borders of those States.

2. For some years past the inadequacy of the Indian Aircraft Act, 1911, has been increasingly felt, and the stage has now been reached where it is no longer possible to control air traffic efficiently, or to implement India's International obligations without fresh legislation. The present Bill therefore is designed to enlarge the rule-making powers of the Governor General in Council in order to meet modern developments, to enable Government to give full effect to the provisions of the International Convention and its annexes, and to provide for certain other matters on which legislation has become necessary.

F. NOYCE.

NEW DELHI,
The 10th March, 1934.

NOTES ON CLAUSES.

Clause 2.—The definition of “aircraft” differs from that given in the present Act and is based on the definition in one of the annexes to the Convention.

Clause 3.—This clause will give the Governor General in Council power to make relaxations in favour of aircraft on police or customs service, aircraft under test, unlicensed pilots undergoing instruction or test, and in other cases where the application of the full force of the Act and rules is inexpedient.

Clauses 4 and 5.—Clause 5 contains all the specific rule-making powers now required; but as fresh powers may at any time be required to give effect to a new annex to the Convention, clause 4 has been included.

All rule-making powers are given to the Governor General in Council, and the concurrent power of Local Governments to make rules subject to the control of the Governor General in Council, which appears in section 3 of the present Act, has been removed. This is in accordance with the present constitutional position.

Clause 6.—This clause contains only those elements of sections 5, 6, 7 and 7A which are required in times of emergency and is of restricted scope. Those elements of these sections which are required for normal times are included in clauses 5 and 8, with lesser penalties under clause 10.

Clause 7 is a new and specific rule-making power on the very important subject of the investigation of accidents.

Clause 8 is a necessary disciplinary power to secure that airmen and aircraft comply with the Act, and with the rules and orders issued thereunder and is a restricted version of clause (c) of sub-section (1) of section 6 of the present Act.

Clause 9 is also new and is an extension of the law of salvage to aircraft.

Clauses 10, 11, 12 and 13, along with sub-clause (4) of clause 6, contain the penal provisions of the Bill. The penalty of three years’ imprisonment, which may be awarded to a large number of offences under section 8 of the present Act, has been restricted to offences under clause 6; and in other respects also the penalties prescribed in sections 8 and 9 of the present Act have been reduced.

Clause 15, like clause 9, is an extension of the Merchant Shipping Law to Aerial Navigation.

Clause 16 makes specific provision for the application of customs procedure to the import and export of goods by air.

Clause 17 is new and establishes the important principle that the mere fact of flight over property does not in itself constitute trespass or nuisance.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 28th March, 1934:—

C. S. BILL No. 1 of 1934.

A Bill further to amend the Indian Trusts Act, 1882, for a certain purpose.

WHEREAS it is expedient further to amend the Indian Trusts Act, 1882, for the purpose hereinafter appearing; II of 1882. It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Trusts (Amendment) Act, 1934.

Amendment of section 20, Act II of 1882.

2. To clause (a) of section 20 of the Indian Trusts Act, 1882, the following proviso shall be added, II of 1882. namely:—

“Provided that securities, both the principal whereof and the interest whereon shall have been fully and unconditionally guaranteed by any such Government, shall be deemed, for the purposes of this clause, to be securities of such Government.”

STATEMENT OF OBJECTS AND REASONS.

Certain Provincial Governments, and in particular the Government of Madras, are desirous that the status of trustee securities should be extended to debentures issued by Land Mortgage Banks and similar corporations, provided that both the principal and interest of such securities are fully and unconditionally guaranteed by the Local Government concerned. The most suitable method of giving effect to this in a general form was considered in connection with the Reserve Bank legislation and the proposed amendment to the Indian Trusts Act, 1882, follows, with suitable verbal alterations, the wording of the first proviso to sub-section (8) of section 17 of the Reserve Bank of India Act, 1934.

RESOLUTION—No. 4714P.

CALCUTTA, THE 21ST APRIL 1934.

Read—

The report of the Committee appointed by Government in resolution No. 10680 P., dated the 9th October 1933, to examine the question of the future administration of the areas now included in the district of Noakhali.

1. In 1921 owing to the continued erosion of the town of Noakhali, the Government of Bengal appointed a Committee to advise where new headquarters could most advantageously be located on the assumption that their construction would be necessary in the near future. The

Committee submitted a report in favour of Maijdi and the recommendation was accepted by Government in February 1922. The main grounds on which the Committee based its decision were that—

- (1) the probability of erosion reaching Maijdi was not great;
- (2) Maijdi was centrally situated and was equally convenient of access from all parts of the district including the islands;
- (3) the site at Maijdi had already been acquired at considerable expense; and
- (4) it was near the existing site of the district headquarters and the temporary residential quarters erected for Government officials at Sonapur.

To give effect to this decision, the vote of the Legislative Council was obtained to the expenditure of a sum of Rs. 2,00,000 during 1922-23 on the excavation of two tanks and other preparatory measures. Subsequently, as the situation showed an improvement, it was decided that the project should be held in abeyance and developments should be watched. A sum of Rs. 90,000 out of the Rs. 2 lakhs was accordingly surrendered, the rest being utilized in raising the site, digging tanks and manufacturing bricks which could be used for foundation work should erosion begin again.

2. Erosion of the town commenced again in 1929, and during the last two years it has proceeded to such an extent that arrangements have had to be made to erect some of the Government offices at Maijdi and the prospect of the present civil station having to be abandoned altogether and a new headquarters station constructed steadily increases. In these circumstances and in view of the large expenditure which such a scheme would involve the Governor in Council appointed the Committee whose report forms the subject of this resolution. It was composed of the following members:—

- (1) the Commissioner of the Chittagong Division, *President*,
- (2) the Superintending Engineer, Public Works Department, Eastern Circle,
- (3) the Superintending Engineer, Irrigation Department, Southern Circle,
- (4) The Deputy Inspector-General of Police, Bakarganj Range,
- (5) the Collector of Noakhali,
- (6) the Chairman of the District Board of Noakhali,
- (7) Khan Bahadur M. A. Momin, M.L.C.,
- (8) Babu Hem Chandra Roy Choudhury, M.L.C.,
- (9) Maulvi Muhammad Fazlullah, M.L.C., with Khan Bahadur Saiyid Muazzamuddin Husain as *Secretary*.

3. The report of the Committee which has now been received contains the following recommendations:—

- (i) that the district should not be dismembered, and
 - (ii) that the headquarters of the district should be shifted to Maijdi. The reasons for the first recommendation, which is unanimous, have thus been summarised by the Committee:—
- (1) Any increase in the administrative burden of the neighbouring districts will be a retrograde step.
 - (2) Dismemberment is not likely to effect any appreciable economy to Government.
 - (3) The district ranks comparatively high among the districts of Bengal by most standards; the reasons for its creation still exist, and it presents peculiar features which justify its retention as a unit.
 - (4) Any scheme of dismemberment will arouse intense opposition and involve further delay. It is a question of immediate urgency to determine the site from which the present district is to be administered.
 - (5) If Noakhali town had not been eroded the question of dismemberment would not have been raised.

For the second recommendation, which is subject to dissent by two members, the reasons have been given as follows:—

- (1) It will involve a minimum disturbance of existing conditions.
- (2) Some of the Noakhali offices will have to be moved somewhere in the immediate future and Maijdi with its prepared site makes this an immediate practical possibility.
- (3) With Maijdi selected as the permanent headquarters the public will be saved the double move which a temporary location at Maijdi would imply.
- (4) Of all the sites suggested Maijdi is the most convenient for the efficient administration of the islands the importance of which has always been recognised and is steadily increasing.
- (5) Owing to their propinquity to Maijdi the Sonapur buildings can remain in use for some time to come.
- (6) The saving in cost as compared with Beganganj more than compensates for the risk which in the view of the Committee is slight.
- (7) The selection of Maijdi will as far as the Committee gathered be approved by a great majority of the public.
- (8) The cost of removal of materials, records, furniture, etc., will be appreciably smaller than it would be to any other site.

4. The Governor in Council has carefully considered the report and has decided to accept the recommendations that the district should not be dismembered and that its headquarters should be shifted to Maijdi. Immediate steps will now be taken to give effect to this decision, since erosion still continues and, as the Committee points out, the matter has become one of urgency.

Ordered that this resolution, together with the report of the Committee, be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

G. P. HOGG,

Chief Secretary to the Government of Bengal.

Report of the Noakhali Committee.

This Committee was appointed by Government Resolution No. 10680 P., dated the 9th October 1933. The reason for its appointment was thus summed up in a note by the Chief Secretary as follows: "The time has come when the measures to be taken on the abandonment of the town of Noakhali must be definitely planned." We have been asked to examine from all points of view the future administration of the areas now included in the district of Noakhali and to report as early as possible on the question (a) whether the district should be dismembered and, if so, how, (b) if not, where the new district headquarters should be located.

2. We first met at Noakhali on the 22nd November and were impressed from the outset by the urgent necessity for speed. This has already been suggested by the Government resolution but our inspection of the erosion in connection with our first meeting in November convinced us of the imminent risk to which the remaining Government buildings at Noakhali are exposed and the practical certainty of the removal of some at least of the offices to another site being necessitated in 1934*. We accordingly decided to collect by the 10th of December information mainly statistical from the officers concerned and to endeavour to digest this so as to be ready to bring our deliberations to a conclusion in the first week of January. The assembly of the Legislative Council having been fixed for the 8th January and three of us being members of that body this procedure was necessary if the presentation of our report was not to be unduly and dangerously delayed. The ready co-operation of District Officers, Judges and Superintendents of Police and the assiduity of our Secretary, Khan Bahadur Saiyid Muazzamuddin Husain, combined to allow this programme to be successfully carried out.

3. The district of Noakhali was formed in the year 1821 and, apart from certain readjustments of the borders between it, Tippera and Chittagong and the transfer of Dakshinshabazpur to the Bakarganj district in 1869, covered practically the same position as it does now. It appears that one of the main reasons for the establishment of the district was the practical impossibility of administering the islands from distant stations and the inconvenience of their being subject to divided jurisdictions; for before 1821 some were under Chittagong, some under Tippera and others under Bakarganj. It appeared to us that very cogent reasons would have to be adduced before a unit of such comparative antiquity and based upon obviously sound administrative reasons could be recommended for dismemberment.

4. It is relevant to the consideration of this question to note under various heads the present position of Noakhali among the 27 districts into which Bengal is divided. This is shown in the following table:—

In inspoct of—					Noakhali stands.
Area	23rd.
Police cases	10th.
Court fee income	16th.
Complaint cases	15th.
Civil suits	14th.
Population	11th.
Land revenue demand	9th.
Khas mahal	5th.

From this it is evident that as an administrative unit Noakhali is very far from being the least important in the Presidency. It is also relevant to observe that the District Administration Committee of 1913-14 was emphatic in its condemnation of unwieldy districts while the existence of a population of 20 lakhs has been held by the Bengal Retrenchment Committee of 1932 to be the maximum which can be properly administered. It is true that at present that maximum is in many instances exceeded but the attendant disadvantages are too well known to be repeated.

*By the beginning of January the course of the Noakhali Khal had definitely altered for the worse.

5. The population of Noakhali district was returned as the result of the 1931 Census at 1,706,719. The figures at previous enumeration are interesting, viz.:—

1881	820,972
1891	1,009,693
1901	1,141,728
1911	1,302,290
1921	1,472,786

At this rate of growth it looks as if Noakhali will shortly reach the two million level.

6. In other respects also the district presents interesting features. The growth of land revenue shown in the following table has been remarkable:—

					Rs.
1842	5,31,775
1871	6,41,804
1908	9,24,678
1919	9,62,854
1932	1,105,644

This growth is of course mainly due to the important island khas mahals but had the land revenue been administered from some remoter station it seems at least open to doubt if the above results would have been achieved.

7. The number of patni taluqs is another unusual feature. No fewer than 4,513 of these were advertised for sale last year though 45 only were actually sold. The inconvenience to all these patnidars if they had had to go to, say, Comilla, can be easily imagined. The peculiar jealousy which exists between different sects of the Muslim inhabitants needs constant watching by the District Officer, while the shifting of the river causing perpetual alluvion and diluvion gives him much work both as Collector and as Magistrate. Then again Noakhali as a district prides itself on its system of roads, and the inhabitants not unreasonably fear, a point which we return later, that these are likely to suffer at the hands of District Boards other than their own.

8. The Chief Secretary in his note has drawn our pointed attention to the dislocation of one of the arterial roads, which used to connect Noakhali with Bhabaniganj and Santasita on the west and Companyganj and Chaprashirhat on the east. It is of course true that this causes some inconvenience to the inhabitants of those parts who now have to take a more circuitous route to the headquarters, but it must be remembered that distances on the mainland are comparatively short while the position of the islanders is unaffected. The present inconvenience is nothing to that which would result from placing portions of the district under external administrative centres.

9. For the study of this question of dismemberment we collected and considered various statistics relating to the districts which might be affected. We do not wish to swell the bulk of this report by reproducing them all but those in the following table are pertinent:—

I. Revenue.

	Number of Tauzis.	Total Land Revenue.	Khasmahal revenue.	Certificate cases.	Road Cess demand.
Bakarganj ..	4,182	27,88,805	14,60,388	13,961	5,50,501
Chittagong ..	28,529	16,47,076	11,06,367	22,267	2,60,275
Tippera ..	3,543	11,92,949	2,31,727	21,820	3,31,552
Noakhali ..	1,757	11,05,644	6,03,759	6,628	2,86,936

II. Criminal cases.

			Number of complaint cases tried.	Police case charge shoots.	Sessions cases, in 1932.
Bakarganj	6,677	1,263	265
Chittagong	3,009	432	74
Tippera	5,179	850	64
Noakhali	3,082	444	35

III. Civil Justice.

		Number of original civil suits.	Number of appeals.	Amount of Court fees. Rs.
Bakarganj	39,042	1,116	9,39,174
Chittagong	28,240	1,706	6,11,548
Tippera	34,023	895	7,34,006
Noakhali	28,760	1,255	6,38,796

These figures indicate that any addition of revenue work to Chittagong is practically unthinkable as is the addition of any Civil and Criminal work to Bakarganj or Tippera. We do not therefore discuss the various schemes of dismemberment which might be adopted but merely note how the one which in our view is least open to objection is likely to operate. Under this scheme the mainland thanas of Noakhali Sadar subdivision will be added to Tippera, Sandwip, Hatiya and the whole of Feni subdivision to Chittagong and Ramgati and neighbouring Char lands to Bakarganj.

10. Bakarganj is already a difficult and heavy charge with the largest khas mahal demand in Bengal and it is difficult to justify any addition to it particularly of islands separated from the subdivisional headquarters by 2 to 3 miles of, in the monsoon, very stormy water. The arrangement would also be difficult for the inhabitants many of whom actually reside in Noakhali Sadar who would be very far from Barisal the headquarters of the district.

11. As regards Chittagong the existing revenue administration is not only heavy as shown in the foregoing table I but also exceedingly intricate. Under this scheme about Rs. 5 lakhs will be added to its khas mahal revenue and a mass of complicated alluvion and diluvion cases to the Collector's work. The addition of Feni subdivision which is more closely connected with Tippera than with Chittagong will be unnatural while from the point of view of the public it is important to note that more than half the khas mahal tenants of the islands actually reside on the mainland of Noakhali Sadar subdivision.

12. The effect on Tippera is even more marked. Apart from the Chittagong Hill Tracts it will stand eighth instead of fifteenth in point of size with an area of 3,456 square miles, and second only to Mymensingh in population which will exceed four millions. Criminal work will increase by about thirty and civil litigation by nearly fifty-four per cent. It is difficult to contemplate the deliberate constitution of such an administrative area. In this connection it may be observed that as far back as 1913-14 when the population of Tippera stood at 2·43 million only the District Administration Committee regarded its partition as a thing not long to be delayed. To add to its present size and population would in our considered opinion be very definitely a step in the wrong direction.

13. The objections to this the least objectionable of the possible schemes are we consider in themselves sufficient to ensure its rejection. We wish however to point out that any such distribution will not result in any particular economy to Government. A subdivisional headquarters will have to be made somewhere in the present Sadar subdivision of Noakhali, and buildings will have to be added for offices and probably for the residences at Chittagong and Comilla: the acquisition of sites at these places will be very expensive. On the other hand the saving if any in overhead charges is likely to be small. Mr. Gordon, one of our members, has calculated that apart from the needs of Bakarganj and the Noakhali subdivision of Tippera such a redistribution will actually involve the addition of one superior and one "feeder" post to the cadre of the Imperial Police. We have not made actual calculations about other services but from the figures already given permanent additional Magistrate-Collectors will clearly be needed in Tippera and Chittagong and possibly two permanent Additional Judges as well.

14. As regards the public view all the representations except one (from Bakarganj) that we have received are opposed to dismemberment of the existing district. Sentiment is probably the mainspring of the objections, but sentiment which has the experience of eleven decades behind it is not to be lightly brushed aside. There are however strong practical considerations the most important of which is the extra expense and inconvenience to which the Noakhali public

will be put in connection with the conduct of litigation and revenue business at Chittagong, Comilla or the still more distant Barisal. The people of Noakhali want more facilities not fewer. There is also the very natural and not unreasonable apprehension that the Noakhali members will not be able to pull sufficient weight in the other District Boards and that the interests of the Noakhali areas will be sacrificed to those of places nearer to headquarters. "Step-motherly" is the not inapt epithet applied in many representations received by us to the attitude likely to be shown by those District Boards to the Noakhali areas. We are convinced that any serious proposal for dismemberment of the existing district would arouse intense opposition which whatever its success will inevitably delay the final solution of the problem. As we have already tried to emphasise the problem brooks no delay.

15. This naturally leads to the mention of another suggested solution involving not merely the dismemberment of the present Noakhali district but a general reshuffle of administrative areas. It was first we believe mooted in 1914 by the then Divisional Commissioner, Mr. Geake, and subsequently in connection with the discussion of 1921 fostered by Mr. Thompson, who had conducted the survey and settlement operations of Tippera and Noakhali. The suggestion is that the Chandpur subdivision should be detached from Tippera and combined with Noakhali Sadar subdivision and the islands in an entirely new district, the Feni subdivision being added to the remaining portion of Tippera. This has certain apparent advantages: (a) Feni subdivision as already noted has close connections with Tippera, two of its four thanas are included within the Roshnabad pargana, the zamindari of the Maharaja of Tippera; (b) the heavy district of Tippera will get relief in area and population; and (c) communications internally by khal, road and rail and externally by river will be comparatively good. Mr. Geake's idea was that Chandpur should be the headquarters but probably some other more generally accessible place (Mr. Thompson suggested Lakhipur) would have to be selected as we understand that the eastern channels of the Meghna river are now shallow and dangerous. We have not however gone into this proposition in any detail, because

(a) it equally with the retention of the present district involves the selection of a site for and the erection of a new district headquarters station;

(b) it will inevitably arouse opposition in both Tippera and Noakhali;

(c) it means no economy to Government at all events in regard to capital expenditure;

(d) its detailed examination and the discussion of alternatives of perhaps equal or superior merit will take considerable time; and there is no time to spare.

16. This concludes our observations on the suggested dismemberment of the Noakhali district. We unanimously agree that it should be retained intact. Our reasons may be thus summarised—

(1) Any increase in the administrative burden of the neighbouring districts will be a retrograde step. The policy of Government should be where and when possible to reduce that burden. (The observations of the Bengal Retrenchment Committee, 1932, have here considerable relevance.)

(2) Dismemberment will not probably effect any appreciable economy to Government.

(3) The district ranks comparatively high among the districts of Bengal by most standards; the reasons for its creation still exist, and it presents peculiar features which render close control literally desirable.

(4) Any scheme of dismemberment will arouse intense opposition and will involve delay, which cannot now be afforded. The question of immediate urgency which must be settled is "from where the areas forming the present district are to be administered."

(5) If Noakhali town had not been eroded the question of dismemberment would not have been raised.

17. Having thus answered the first of the questions put to us in the negative we now turn to the location of a permanent headquarters for the district.

18. On this subject we received no fewer than 272 representations from various sources of which 221 emanated from the Sadar

subdivision—Begamganj thana heading the list with 65. A very great majority of the representations from this subdivision prefer Maijdi as a permanent headquarters but suggest Bazra as an alternative. Forty-seven prefer Bazra, 5 only Begamganj and 5 Feni. Of 28 representations from the Feni subdivision 24 support Feni and one only Maijdi though three suggest the latter as an alternative. Of 25 received from the island thanas 19 prefer Maijdi and three Feni. Too great importance cannot however be attached to these figures as we understand that a good deal of canvassing was done in certain quarters but we feel that they may be taken to indicate a general preference for Maijdi if the latter be considered safe for the headquarters. But what strongly impressed us in both the written and the verbal opinions that we received was the general demand for a definite decision. Nobody wants a temporary headquarters with the prospect of another move at some uncertain date in the future.

19. We all visited the different sites which had been suggested, but did not endeavour to seek out any others partly because time was short but mainly because we felt that during the long period in which the question has been under discussion other sites would certainly have been suggested if any were at all suitable. At each of the sites we heard representatives of those who supported its selection.

20. At Feni there are two proposed sites, one at Bejoy Singh's Dighi about a mile from the existing town. This was the position favoured by Sir William Duke in 1913 but then it was understood that all four of the banks of the Dighi would be available for buildings. Actually however this is only true of one bank as the others are occupied by Muslim graves. Other land therefore would have to be acquired and raised which is roughly estimated to cost about Rs. 2½ lakhs. The other suggested site is about 2 miles from the present town and consists of low "tilas" which would not require raising and the land is said to be cheap. But as a place for the headquarters of the district it will be even more inconvenient than Feni itself, which is located in a corner of the district particularly remote from most of the islands. We are unanimously of opinion that neither of the Feni sites possesses advantages sufficient to outweigh the obvious disadvantages of placing the district headquarters there.

21. Bazra also we unanimously rejected in spite of the comparatively strong measure of public support which it has received. Its situation is open to the same objections as Feni though to a somewhat less degree for though situated in the centre of the northern portion of the district it is distant from the islands, and we felt that like Feni it could only be considered if the nature of the site offered special advantages. This however it does not. For although the zamindar, Khan Bahadur Ali Ahmed of Comilla, has generously offered to give to Government some 50 acres of his khas land there, these are in our view quite unsuitable as the nucleus of a district headquarters station and the rest which would have to be acquired is low and full of pits and tanks the raising and levelling of which would be a costly business. The saving which acceptance of the Khan Bahadur's offer would cause to Government would be a small fraction only of the total cost of the headquarters, and the site itself as it stands is quite unsuitable for the immediate erection of buildings.

22. Begamganj on the other hand though it has received little written support—only 7 out of the 272 representations being actually in its favour and 19 suggesting it as an alternative—offers certain advantages. It is central with good road communications, it is close to the big commercial centre of Chaumuhani, it at present affords communication by boat with the islands and as far as can be judged there is no risk whatever of erosion. One of our members, Mr. Hem Chandra Roy Chaudhuri, very strongly supports the claims of Begamganj against Maijdi urging in particular that the public knowing Begamganj to be quite free of risk will be ready to invest money there which even the slight risk attaching to Maijdi will deter them from doing. While we appreciate the force of his arguments the rest of us have been compelled to disagree. Rai S. N. Banerjee Bahadur pointed out that the communication with the islands is not as good as it looks and will get worse as the khal is deteriorating but apart from that the main factors which influenced us were time and money.

23. As regards time we are all agreed including Mr. Roy Chaudhuri that whatever is decided now must be final and if it can be avoided the public must not be put to the inconvenience of a double move. This is inevitable, however, if Begamganj is selected the permanent headquarters. The land will have to be acquired and raised

and will not be suitable for building till the end of next rains even if work could start on it at once. This means in view of the very serious position at Noakhali town that there must be a temporary move to the only place ready, Maijdi, and so ultimately that double move which is universally deprecated. If this Committee had been convened even a year ago this might have been avoided and Begamganj might have been a possibility without involving this double shift but except for Mr. Roy Chaudhuri we should probably still have recommended Maijdi.

24. We do so now and should probably have done so then because in our opinion its advantages outweigh the risk of erosion.

25. One great advantage which the site at Maijdi has over any other is that a shift to it will not only cause the least disturbance to existing conditions but will cause the least inconvenience to both Government and people. While it may be necessary for Government to shift some of its offices at once the residents of Noakhali may choose and build the houses in the new town only gradually while carrying on their business from their present homesteads and if the erosion stops by the oscillation of the river backwards a considerable number of the inhabitants need not shift their homesteads at all. At the same time it will not be necessary for Government to build residences of officers for some years to come as the latter can continue to live at Sonapur.

26. Then as regards money, the land at Begamganj is low and the cost of raising consequently high. We have roughly worked out that to build the headquarters at Begamganj will involve on the acquisition and raising of land alone an expenditure of Rs. 4½ lakhs over that involved in now making the permanent headquarters at Maijdi. To this should be added the cost of temporary buildings which must in any case be put up at Maijdi* and the loss to which Government will be put in finally disposing of the Maijdi and Sonapur properties which will no longer be of use. This has been roughly estimated at another Rs. 4 lakhs, but even if we take the total extra cost at the moderate figure of Rs. 5 lakhs we consider that the risk of erosion is worth taking. Rai S. N. Banerjee Bahadur our Irrigation Member can very naturally not give a definite opinion that Maijdi is free from that risk. It might be thought possibly be attacked in forty years†. But the saving of Rs. 5 lakhs now will be worth about Rs. 34 lakhs forty years hence at 5 per cent. compound interest which ought to be ample to build a new headquarters or to meet the cost of protective measures if the supposed risk materialises. If it does not, Government will in theory be better off by that amount. On the financial side alone therefore the risk of erosion is worth taking.

27. As regards that risk, the appended map shows the coast line at different dates in the last two centuries and it will be seen that it now approaches the position recorded by Major Rennel as existing about 200 years ago. As Mr. Thompson puts it in his Settlement Report this period has witnessed a very even struggle between land and water and though, as Rai S. N. Banerjee Bahadur has emphasised to us, it is impossible to prophesy the vagaries of such a vast estuary it seems to most of us reasonable to suppose in view of the past history that the turning point is about to be reached and that the risk of erosion to Maijdi is so small as to be far outweighed by the advantages of selecting it as the permanent headquarters of the district, and the Rai Bahadur agrees in this conclusion.

28. We therefore recommend to Government that this be done and our reasons may be thus summarised—

(a) It will involve the minimum disturbance of existing conditions;

(b) Some of the Noakhali offices, etc., will have to be moved somewhere in the immediate future and Maijdi with its prepared site makes this a practical possibility—in point of fact they can be moved nowhere else;

(c) With Maijdi selected as the permanent not merely temporary headquarters the public will be saved the double move that they are so anxious to avoid;

(d) Maijdi is the most convenient of all the sites for the efficient administration of the islands the importance of which has always been recognised and is steadily increasing;

* Rupees 12,000 has already been spent.

† A copy of his letter No. 5516, dated the 8th November 1933, is appended.

(e) Owing to their propinquity to Maijdi the Sonapur buildings can continue in use for some time to come;

(f) The saving in cost as compared with Begamganj more than compensates for the risk which in our view is slight;

(g) The selection of Maijdi will as far as we have gathered be approved by the great majority of the public;

(h) The cost of removal of materials, records, furniture, etc., will be appreciably smaller.

29. As regards the nature of the future station since some *kutch* buildings have already been run up and others will have to be in the immediate future we recommend for Government's consideration that at first all except those which must be *pucca* (jail wall, treasury, magazine and the like) should be of this nature. This will be immediately cheaper and will also make for that first essential speed while it will allow of Government replacing them with *pucca* buildings as funds permit.

30. In this connection we consider it important that the new town should be properly planned and desire to record a suggestion made by our Secretary that it would be advisable on general grounds as well as profitable to Government if the latter made and managed the bazar.

31. We have received representations regarding the internal structure of the district from two quarters Feni and the islands. Some of the inhabitants of Feni want the subdivision to be increased in size by the addition of Compaiganj and Senbag thanas of Sadar, chiefly, it seems, with the object of securing to the subdivision more influence upon the District Board. The islanders have asked for the establishment in the islands of a regular subdivision which they represent can be done at no particular expense to Government and to the great convenience of themselves. We felt some doubt whether such questions fell within the scope of Government's terms of reference, we also felt strongly that any attempt by ourselves to examine them would inevitably but unnecessarily delay the decision on the problem of immediate urgency, the site for the headquarters. These requests should, we feel, in the first place be addressed to the District Officer who, if on due consideration of all the issues involved he finds them worthy of support, will doubtless recommend them to Government through the customary channels.

In conclusion we wish to thank our Secretary, Khan Bahadur Saiyid Muazzamuddin Husain, for his clear presentation of the materials with which we had to deal and Babu Kalibrahma Mukharji, the District Engineer of Noakhali, for among other assistance preparing for us the map which illustrates this report.

No. 5516, dated Calcutta, the 8th November 1933.

From—Rai S. N. Banerji Bahadur, Superintending Engineer,
Southern Circle,
To—Khan Bahadur Saiyid Muazzamuddin Husain, Secretary,
Noakhali Erosion Committee, Noakhali.

With reference to letter No. 963 C., dated the 23rd/24th October, 1933 from the Commissioner of the Chittagong Division to my address (copy enclosed herewith for reference), I have the honour to report as follows on the risk of danger to the Maijdi site for building the proposed new headquarter of the Noakhali district.

2. The data in regard to the cross sections of the river, etc., available in this department are meagre, and from them I could not trace the precise habits of the river and the Noakhali khal during the last half a century or so. In October 1931, I inspected the erosion at Noakhali in great detail with the Collector and several leading and influential gentlemen of the city. We visited the khal and the area up to Chaumuhani and thence to Feni.

3. It is clear that the town is attacked from 2 sides by 2 forces:—

- (a) On the south erosion happens due to wave action of the Meghna.
- (b) On the north bank erosion is caused by current of the Noakhali khal.

4. Regarding (a) above it is worth mentioning that the Char Jabbar has been steadily rising and connecting with the main land of Noakhali town. All the same, wave action is in progress, and it is bound to continue as long as the Char leaves a fairly wide channel between itself and the town, provided the channel is submerged at high water. This process may continue for many years and it is not unlikely that the Meghna will continue to engulf land steadily. It is often a mistake to build high hopes regarding stoppage of bank erosion by seeing the formation of a wide char in front. From a map in this office I find the river has encroached nothing less than $1\frac{1}{2}$ miles since 1912 and it cannot be forecasted that it will not continue at this rate for many years more. For one estuary like the Meghna, erosion of 4 or 5 miles can not be called a very remote contingency, and may mean only 30 or 40 years. From this point of view hesitation naturally arises regarding the permanency of Maijdi site, although to an ordinary spectator Maijdi would appear to be sufficiently inland to escape the attacks of the river.

5. *Regarding (b).*—I do not think there is any risk of the Maijdi site being affected in the future by the erosion of Noakhali khal and the catchment of the khal is a limited area.

6. In the matter of location of a big drainage sluice which was under contemplation in 1930-31, Mr. C. Addams-Williams, C.I.E., then Chief Engineer, Irrigation Department, remarked that however inland the sluice might be located there was no knowing that it would not be engulfed by the Meghna.

7. I am fully conscious of the fact that Maijdi site was selected after full consideration and Government have acquired 1,000 bighas of land there and burnt some bricks. No doubt this is one important consideration in favour of Maijdi site. But with the least possibility of the site being attacked by the river even after half a century, I would hesitate to recommend the site as quite safe from future river erosion.

Note of Dissent.

I am sorry, I could not find myself in agreement with my colleagues as regards their decision about the location of a permanent headquarters for the district. After dealing with the questions of "time and money" which influenced their decision, and making some observations about some other matters pointed out in the report I give below the reasons for preferring Beganganj to Maijdi as more suitable for the purpose—

Time.—I cannot take the opinion of experts with complacence as regards the immediate necessity for constructions of almost all office buildings elsewhere, for, only a few months ago, when progress of erosion was rapid, thousands of rupees were spent for constructions of the thana buildings, the registration office, the police barracks and the magazine at the present town. In fact what little experience we have about the erosion for the last 20 years does not bear out such an opinion. Deputy Magistrates' Court buildings may, of course, be attacked during the next rainy season, rest of the Government buildings including jail will not be in all probabilities touched within next two years. To meet emergency, three "*kutchas*" office buildings have already been erected at Maijdi. Those offices and departments which have little connections with public or with other departments may be removed there. Pleaders, muktears and clerks will not of course have to make shift there. They will be able to transact their business from the present town. They and the litigant public will no doubt be a bit inconvenienced for a few months but in consideration of ultimate advantage they cannot reasonably grudge that. Double move is deprecated no doubt, but location of headquarters at Maijdi will not help us in averting that. If urgent necessity for removal of some more offices arises, "*kutchas*" constructions of the type now at Maijdi, may be begun at Beganganj in June next even with bricks now ready at Maijdi. Those may be removed there at a very moderate cost by boat even now.

Money.—In my opinion money question has been given undue prominence in considering the suitability of the Maijdi site and future welfare and administrative facilities of the district have been sacrificed. The Government has no doubt spent there and at Sonapur a considerable amount for making temporary arrangement for accommodation of some of the offices and for residence of some officials, knowing full well that these properties may have to be abandoned when a site for a permanent headquarters is selected. If some other place is found more suitable there can therefore be no reasonable ground for rejecting it in consideration of the facts that the Government will have to incur some loss and shifting at a new site will require more promptitude. It is from this point of view, I believe, the Chief Secretary to the Government of Bengal has advised us (vide paragraph 11 of his note to the Committee) to examine the broader question of the future administration from an administrative, judicial, revenue and police points of view and as for Maijdi to consider the question of progress of erosion and communication with different parts of the district. There was no enquiry about the actual loss, the Government would have to incur in case the site at Maijdi be given up and Beganganj be chosen for the purpose. Loss of Rs. 5 lakhs has I believe been overestimated and risk of erosion has not been given due consideration. The Sonapur and Maijdi properties of the Government, if disposed of, will fetch a fair amount and a portion of the Maijdi site may be utilised for proposed aerodrome and agricultural farm. I may further add that it is not prudent to risk some fifteen lakhs more for the sake of some temporary advantages. We cannot rest satisfied with the probability of some protective measure to be taken in distant future, for we are not sure if such measures will at all be taken and if taken, those will be successful. By calculating savings and interest thereof, the Government may have some consolation but the poor public will have nothing to rely on in case the proposed headquarters at Maijdi be also washed away.

Small number of representations in favour of Beganganj.—It was rightly pointed out by Rai Bahadur Banerjee in course of discussion that number of representations should not be the index of public opinion in favour or against a particular site, for the number depended on the amount of propaganda the different interested parties could make. I may tell, I was present in some of the meetings; the people were told that the district would be dismembered if they did not support

Maijdi, for the Government would be reluctant to incur fresh expenditure for a new site. The question of dismemberment having been decided in the negative, if the Noakhali people be now asked to make a choice between Maijdi and Begamganj, I may assure with full sense of responsibility that barring an interested group of people near about Maijdi, all others throughout the district will unhesitatingly prefer Begamganj.

Maijdi: Minimum disturbance of existing conditions and most convenient for efficient administration of the islands.—Distance between Maijdi and Begamganj is only four miles. There cannot therefore be any appreciable difference as regards disturbance of existing conditions. There being railway, boat and District Board road connections between those two places, administrations of the islands cannot be less efficient if the headquarters station be located at Begamganj.

I now proceed to give below the points in favour of Begamganj and points against Maijdi.

Points in favour of Begamganj.

1. Begamganj is the centrally located place, hence most suitable from administrative point of view.

2. It has got the advantage of good communication by road, boat and railways with all parts of the district.

3. It is within a mile from the big commercial centre Chaumuhani, having the system of conservancy works managed by a Union Board having an income of six thousands of rupees.

4. The place is at a safe distance from the river and hence no apprehension of erosion.

5. I learn, the Government, accepting the recommendation of the Civil Justice Committee for abolition of "choukis" intends to transfer the Munsifs courts at Lakshmipur to the headquarters station and has invited the opinion of the District Judge. There being direct road communication between Lakshmipur and Begamganj, the proposal may be carried out with the least possible inconvenience to the people of the quarter, and in that case the Government will have some permanent savings.

6. The District Board road between Lakshmipur and Chaumuhani, being the most important one within the district, will in all probabilities be made fit for Bus service within a very short time. Lakshmipur quarter is the wealthiest part of the district; cocoanuts, betelnuts, chillies, jute, etc., grow there abundantly; and those commodities will be brought down to Begamganj and Chaumuhani by boats and motor buses and thus the importance of the place will increase to a great extent.

7. The proposed bus service will help the increase of the railway traffic at the Chaumuhani station. Assam-Bengal Railway being a guaranteed Railway increase of the income of the Railway is a great concern of the Government.

8. Within a very short time the town will grow to a very prosperous one; and will extend up to Chaumuhani.

9. Municipality will have abundant fund for all round improvements of the town. Works of electrification and supply of filtered drinking water will there be possible for the Municipality to take up.

10. The place has already a nucleus of a town, it has a police-station, a charitable dispensary, a Government aided weaving school, a High English school, a Sub-Registrar's office, a dak bungalow, with great potentialities for further development.

11. It is not too much to expect to have there industrial, commercial, agricultural, medical institutions and Art and Science college within near future.

12. Due to fall of price of jute, cost of acquisition of lands there will be far less than what was five or six years back.

13. Unemployed youths will find a field for jobs there with small capital.

14. The Government may make up a portion of the loss by disposing of the excess portion of the acquired lands there.

15. Begamganj has got the greatest number of civil suits amongst all the police-stations within the jurisdiction of the Sadar Munsif's courts.

16. Begamganj heads the list showing numbers of criminal cases—both police and complaint cases—from the different police-stations of the district (vide page 11 of the Representation from the Criminal Bar Association, Noakhali, Noakhali Landholders' Association).

17. Begamganj is nearer to islands than Maijdi through the Railway route.

Points against Maijdi.

1. It is not safe from erosion.
2. It has got no road or boat communication with the eastern and western parts of the district (vide the district map supplied by the District Board).
3. It is neither an important place nor has got any in its vicinity.
4. The site is actually eroded or not, nobody will venture to spend any money there for *pucca* structures and other improvements of the town until and unless the river recedes nine or ten miles back from the present coast line and alluvial lands be actually inhabited by people. Taking a very hopeful view even, we cannot expect to have the situation so improved within next forty years.
5. Town will never grow there.
6. Municipality will have very poor income and hence no improvement will be possible.
7. People of the district cannot expect to have higher, technical, and medical education facilities there for their boys and girls.
8. Youths will find no field for jobs there.
9. To prevent flood the site at Maijdi requires to be raised to a higher level.

In conclusion I may repeat that the permanent welfare of the district, great potentialities for growth of a prosperous town, administrative and judicial facilities as indicated above and avoidance of risk of erosion are matters deserving more consideration than the greater cost the Government may have to incur at Begamganj.

Surgeon-General's letter No. 2334, dated the 11th February 1933, submitting the Triennial Report on the working of Hospitals and Dispensaries in Bengal for the years 1929, 1930 and 1931.

Part I.

Calcutta Hospitals and Dispensaries.

—The hospital accommodation in Calcutta increased during the period by 166 beds in certain non-Government hospitals, the most notable cases of increase being 52 beds in the Vishudhanda Saraswati Marwari Hospital, 49 in the Chittaranjan Hospital and 44 in the Lady Dufferin Hospital. The Manicktala Maternity Home was established during this period with 12 beds. Against these is to be set off a decrease of beds in the State hospitals by 16. A new dispensary attached to the Printing and Stationery Department of the Government of India was also opened during this period. The total number of hospitals and dispensaries thus rose from 42 to 44, of which 38 were general dispensaries and 6 were for females. Of these 23 had accommodation for indoor patients and the remaining 21 treated out-patients only.

Attendance and admission.—The number of indoor patients treated showed a progressive increase. The highest figure 55,063, was reached in 1931 and the aggregate for the three

years rose to 159,530 against 149,209 in the preceding triennium. This increase of 10,321 is attributed to the progressive increase in the number of beds. The corresponding number of out-patients treated during the same period amounted to 2,037,680 in the aggregate against 1,687,411 of the preceding triennium, showing an increase of 350,269 patients. The Medical College group of hospitals secured the highest record of patients in the outdoor departments resulting, presumably, from the opening of a special Out-patients Department. As observed in the case of the previous triennium, the disproportionate increase in the number of out-patients as compared to in-patients is significant of the degree in which the increase of beds in the public hospitals of Calcutta lags behind the growing popularity of these hospitals.

Nursing.—As in the preceding triennium, the nursing services of the Medical College Hospitals and the Presidency General Hospital were conducted by the Calcutta Hospitals Nurses Institution with the aid of a grant from Government. With the depression in trade there was a very serious falling off in the receipts of the Calcutta Hospitals Nurses Institution and the institution had to stop recruitment of nurses in 1931. The nursing staff in the two institutions particularly in the Medical College Hospitals was, in consequence, dangerously depleted and the work of the already overworked nurses increased so greatly as to make adequate attention to the patients a matter of serious difficulty. An additional grant of Rs. 25,000 from Government towards the close of the year, however, helped in easing the situation and in the normal strength being regained. Until Indian women of respectable families take to nursing as a profession it will not be easy to solve the problem of nursing in the hospitals in Calcutta or outside the city. A beginning was made with 6 Indian nurses at the Medical College Hospital with satisfactory results.

The nursing arrangements at the Campbell, Voluntary Venereal and Sambhoo Nath Pandit Hospitals continued as before the triennium. The Sambhoo Nath Pandit Hospital was staffed by Indian nurses trained in the hospital; and from the success which has attended the attempt which is being made in the Medical College Hospitals it

is hoped that a more efficient class of Indian nurses will be available for this hospital also. The nursing arrangements in the Campbell Hospital continued to be unsatisfactory. The number of patients per nurse in this hospital was again the highest among the hospitals in Calcutta. A scheme for the training of male nurses with a view to bringing about an improvement in the situation though approved by Government, could not be brought into operation for want of funds.

Finance.—As in the preceding period, Government continued to bear the major portion of the cost of providing hospital facilities for the city. The total income of State, local fund and aided institutions during the three years amounted to Rs. 98,37,251 as against Rs. 97,49,306 in the preceding triennium, an increase of only Rs. 87,945 over the income of the previous three years. Of this total income, Government contributed Rs. 55,59,966 or 56.52 per cent. during the period under report as compared with a contribution of Rs. 59,79,144 or 61.33 per cent. in 1926-28. Out of this amount Rs. 52,32,896 was spent for the upkeep of the Government institutions and Rs. 3,27,070 was contributed to other institutions in Calcutta as grants-in-aid.

The total cost for the upkeep and maintenance of hospitals of all the three classes in Calcutta, excluding investments, was Rs. 94,04,502 during the triennium under review as against Rs. 92,53,047 in the previous three years, showing a total increase of Rs. 1,51,455.

An encouraging feature appears to have been the increase in the contributions received from paying patients and in other fees as well as in the rate of contributions paid by municipalities to the Calcutta hospitals during these three years. The total contribution from the municipalities amounted to Rs. 1,157,530 or 11.76 per cent. of the total income as compared with a total contribution of Rs. 762,161 or 7.82 per cent. in the previous triennium.

Another satisfactory feature was a considerable increase in subscriptions and donations. The total receipts under this category during the three years under review amounted to Rs. 5,79,589 as compared with a total of Rs. 4,52,598 in the preceding triennium.

Part II.

Mufassal hospitals and dispensaries.

—Excluding the 67 homeopathic, 19 ayurvedic and 9 unani institutions, the total number of hospitals and dispensaries outside Calcutta following the allopathic system including thana and village dispensaries rose to 1,178 and the total number of beds available in these hospitals rose to 5,751 as against 1,114 and 5,553, respectively, during the three previous years. There was thus an increase of 64 in the number of dispensaries and of 198 in the number of beds. The total number of beds available for men stood at 4,342 and those for women at 1,409 as against 4,206 and 1,347, respectively, at the end of the previous triennium. The above figures exclude the few temporary dispensaries which were established for special purposes.

The policy of extending medical relief in rural areas by encouraging the establishment of thana and village dispensaries by means of a recurring annual grant of Rs. 500 for each thana and of Rs. 250 for each village dispensary was continued during the period under review in spite of the unfavourable financial position of Government. The total number of dispensaries of these two categories receiving aid from Government was 264 towards the close of the triennium.

Attendance.—The persistent increase in the number of patients attending the hospitals testifies again to the growing popularity of the hospitals in the mufassal equally with those in Calcutta. The number of out-patients in the mufassal hospitals rose during the triennium to 26,003,466 as against 23,775,238 during the preceding three years, an increase of 2,228,228. During the period under review 238,946 in-patients were treated at these hospitals as against 226,597 during the previous triennium. The increase was undoubtedly due to the provision of a larger number of beds in these hospitals, although the accommodation available in them still falls far short of actual requirements. As in the previous triennium the Dacca Mitford Hospital treated the largest number of in-patients and the next place was taken by the Surya Kanta Hospital, Mymensingh. The total number of patients treated at non-allopathic dispensaries rose to 1,437,106 from 885,216 in the three previous years.

Nursing.—The nursing arrangement in the mufassal hospitals continued to be as unsatisfactory as before. Except in the case of a very few hospitals at the headquarters of certain districts and certain mission hospitals which have a small nursing staff with one or two trained nurses in charge, there were no nurses in these hospitals. A few women of the *dhai* class and the dressers practically constituted the nursing staff in some of the hospitals, while in most of the institutions nursing work was done by relatives of patients with the help of the ward coolies under the supervision of compounders and dressers.

Finances.—The total income of classes I, III and IV institutions in the mufassal amounted to Rs. 73,66,140 as against Rs. 69,90,859 during the previous three years. Out of this amount Rs. 45,00,005 or 61·09 per cent. was contributed by local bodies, and Rs. 11,59,106 or 15·74 per cent. by Government Public subscriptions amounted to Rs. 5,03,604 or 11·84 per cent. during the period under review. Excluding investments, the total expenditure on the three classes of dispensaries during the same period was Rs. 70,69,970 as against Rs. 66,58,623 during the previous three years.

Diseases.—Malaria accounted for the largest number of patients treated, viz., 7,196,318 as compared with 6,167,877 during the previous triennium, an increase of 1,028,441. The number of patients suffering from Kala-azar appeared to be steadily on the decline. There were only 179,202 such patients treated during the period as against 246,981 in the three previous years a decrease of 67,779. The outbreaks of cholera and small pox were also milder, the number of patients treated for these diseases being 31,252 and 2,137 respectively as against 47,972 and 4,291 in the previous triennium.

GENERAL REMARKS.

The triennium under review was a period of acute economic depression and owing to financial stringency expenditure on many useful items had to be curtailed. There was almost a breakdown in the nursing arrangements in the larger hospitals owing to shortage in the contributions for their upkeep. The officers in charge of these hospitals, being under the necessity of observing the strictest economy, had great difficulty in arranging for the adequate dieting and comfort of patients. The new wing of the Eden Hospital, though ready, could not be opened on account of the additional expenditure involved, and as a measure of economy certain extra beds in two of the State hospitals had to be closed. It is, however, gratifying to note that in spite of all these difficulties, the hospitals and dispensaries both in Calcutta as well as in the mufassal continued to grow in popularity and a steadily increasing number of persons took advantage of the treatment provided in them.

There was also a great increase in the demand for X-Ray treatment owing partly to the introduction of new methods and partly to the provision of better facilities and a greater popular appreciation of their utility.

Two new medical schools were opened at Chittagong and Jalpaiguri during this period. Much interest was taken in them by the local public and praiseworthy efforts were made to improve the hospitals on which they were based.

Rules regarding arbitrators for settlement of a betterment fee.

1. **Definitions.**—In these rules, unless there is anything repugnant in the subject or context,—

(a) “objectors” mean persons on whom notices have been served in respect of land to be assessed under section 78B of the Act and who have dissented from the assessment made by the Board, referred to in sub-section (2) of section 78C of the Act;

(b) “the Act” means the Calcutta Improvement Act, 1911; and

(c) “panel” means a panel of arbitrators constituted under sub-section (1) of section 78C of the Act.

2. **Constitution of the panel.**—The Local Government shall constitute a panel of arbitrators for the determination of the matter referred to in sub-section (4) of section 78B of the Act.

3. **Classifications of arbitrators.**—(1) The panel shall consist of two parts having not more than five arbitrators in each part.

(2) The first part of the panel shall be composed of persons holding one of the following qualifications, namely:—

(a) Fellows or Professional Associates of the Chartered Surveyor's Institution of Great Britain, or

(b) Corporate Members of the Institution of Engineers (India) who have practical experience in land valuation, or

(c) Associates or Fellows of the Royal Institute of British Architects who have practical experience in land valuation.

(3) The second part of the panel shall be composed of such persons as are considered suitable by the Local Government for carrying out the duties of an arbitrator.

4. **Appointment and removal of arbitrators.**—The Local Government shall, by notification, appoint the arbitrators in the panel for a period of five years:

Provided that the Local Government shall, by notification, remove an arbitrator if at any time during the term of his office he becomes subject to any of the disqualifications specified in rule 5.

5. Disqualifications of arbitrators.—(1) The Local Government shall not appoint any person as an arbitrator in the panel if he—

- (a) is of unsound mind, or
- (b) is an undischarged insolvent, or
- (c) has been convicted by any Court for any non-bailable offence, provided that such conviction is not set aside or such disqualification is not removed by the Local Government by an order which it is hereby empowered to make, if it thinks fit to do so, or
- (d) holds any office or place or profit under the Board.

(2) A person having a direct or indirect interest in land within the area of a scheme shall not act as an arbitrator for that scheme, provided that if he is already a member of the panel he shall remain such member for the full term of his appointment.

6. Fee for arbitrators.—Before the election or the appointment of the arbitrators takes place under these rules the Local Government shall fix a lump sum as the fee for the arbitrators in respect of the whole of the scheme in which they act as arbitrators.

7. List of objectors and notice on them to elect an arbitrator.—(1) For the purpose of electing an arbitrator under sub-sections (2) and (3) of section 78C of the Act the Chairman shall prepare a list of all objectors. Such list shall be published in accordance with the provisions of section 163 of the Act.

(2) Any person whose name does not appear in the list and who claims the right of being included in the list and any person who considers that his name should be omitted from the list, may submit an application to the Chairman within fourteen days of its publication, to have his name inserted or omitted from the list, as the case may be. The Chairman shall decide all such applications and his decision shall be final.

(3) The Chairman shall serve a notice on all objectors specifying the time and place where they shall meet for electing an arbitrator.

8. Meeting of objectors.—Such objectors shall meet at the appointed time and place and the Chairman shall preside at the meeting.

9. Mode of election of an arbitrator.—(1) The Chairman shall ask the objectors present to decide from which part of the panel they wish to elect an arbitrator. If the objectors do not agree the question shall be decided by the vote of the majority of the objectors. Such voting shall be taken by the Chairman by a show of hands of the objectors. In all cases of an equality of votes the Chairman shall have a casting vote.

(2) The Chairman shall thereupon ask the objectors present to nominate candidates from the part of the panel selected under sub-rule (1). Every such candidate shall be proposed and seconded in writing in Form A annexed hereto, by the objectors present.

(3) The Chairman shall scrutinize the nomination paper of every candidate and accept such nomination if he is satisfied that the name of the candidate is included in the panel and has not been subsequently removed therefrom and that the candidate is not disqualified under sub-rule (2) of rule 5.

(4) If only one candidate is nominated the Chairman shall declare him duly elected. If two candidates are nominated the Chairman shall take a vote by a show of hands of the objectors present and the candidate having the largest number of votes shall be declared elected by the Chairman. If more than two candidates are nominated the voting shall be by ballot and the candidate obtaining the largest number of votes shall be declared elected by the Chairman. In every case where there is an equality of votes the Chairman shall have a casting vote. No vote by proxy or by a letter in writing shall be received.

(5) When the Chairman has declared a candidate as duly elected the election under this rule shall not be invalidated on any ground.

10. Appointment of arbitrators by the Local Government.—As soon as the election is over the Chairman shall forward to the Local Government the name of the elected arbitrator. The Local Government shall thereupon appoint an arbitrator from the other part of the panel. The names of the two arbitrators shall be published by notification.

11. The Local Government appoint both arbitrators where objectors fail to elect one.—If all the objectors fail to attend the meeting specified in rule 8 or if for any other reason they fail to elect an arbitrator, the Chairman shall inform the Local Government of such failure and the Local Government shall thereupon appoint two arbitrators one from each part of the panel. The names of the two arbitrators shall be published by notification.

12. The Chairman shall forward to the two arbitrators a copy of the notification together with the names of the objectors.

13. Submission of statements to the arbitrators.—On receipt of the notification the arbitrators shall issue notices directing the Board and the objectors to prepare and submit to them within such time and at such place as may be specified in the notice, a statement of their respective cases. Such statement shall, in the case of the Board, be signed by the Chairman and in all other cases by the objectors.

14. Hearing not to be held ordinarily.—The arbitrators shall not ordinarily hold a formal hearing of the reference before them, except in special cases where they are of opinion that a hearing is necessary.

15. Time and place of hearing, if any.—In every case of a hearing the arbitrators shall give notice of the time and place of the hearing to the Chairman and the objectors.

16. Parties may appear by agents.—The parties may appear either in person or by their authorized agents and may produce such material as they desire to adduce in support of their respective cases and which the arbitrators consider to be relevant and necessary for the purpose of making an award.

17. Arbitrators to keep a report of proceedings.—The arbitrators shall keep a report of their proceedings. It shall not be necessary for them to keep a verbatim record thereof.

18. Parties to produce books, etc., before arbitrators.—Every party to a reference shall produce before the arbitrators all books, deeds, accounts, maps, plans and other documents within his possession or power which may be required or called for by the arbitrators.

19. Inspection of land by arbitrators.—The arbitrators may enter upon any land or premises for the purpose of inspection between sunrise and sunset after giving notice of the same to the occupier. They shall not enter upon any room or place in the occupation of *pardanashin* females.

2. The draft will be taken into consideration on or after the 7th July 1934, and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft rule.

17A. No cistern, tank or reservoir of any description, which is intended to be supplied with water from the municipal waterworks, shall be permitted to any holding except with the sanction of the commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank or reservoir must be controlled by an efficient ballcock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. The ballcock will count as one tap for the purpose of rule 15.

Jalpaiguri.—No. 1063P.H.—7th May 1934.—The following draft of rules, which in exercise of the power conferred by section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Government of Bengal (Ministry of Public Health) propose to make, and subject to which the Commissioners of the Jalpaiguri Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purposes of leading water to premises for domestic purposes only, is published for the information of persons likely to be affected thereby.

2. The draft rules will be taken into consideration on the 7th July 1934 and any objection or suggestion which may be received by the undersigned before that date will be duly considered:—

Draft Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may grant to any owner or occupier of a holding paying a water rate imposed under the provisions of

Chapter VIII of the Bengal Municipal Act, 1932, on the annual value of such holding, when such annual value is not less than Rs. 200, a connecting-pipe from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only.

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes must apply for the same on the printed form "A" to be supplied free of cost at the municipal office. The conditions subject to which a house connection will be given are set out in the form, and the owner or occupier shall sign the statement undertaking to observe the rules before a house connection will be given.

2. A fee of Rs. 75 shall be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe, and an extension from the communication-pipe of one holding to another holding shall not be permitted.

4. The connection shall consist of two portions:—

- (a) the service-pipe from the street main to the boundary of the holding; including ferrule, stop-cock and check-pipes;
- (b) the storage tank (or tanks) with service-pipe connecting to it from the boundary of the holding, also outlet-pipes, taps and other accessories as required.

5. The items referred to in clause (a) of rule 4 shall be provided and fixed by and at the expense of the Commissioners, and such pipes and fittings shall remain as their property.

6. The items referred to in clause (b) of rule 4 shall be provided and fixed at the expense of the owner or occupier and shall be maintained by him in good working order. The tank is to be suitably covered and protected and is to be provided with locked lid, ball-valve, stop-valve and overflow pipe.

7. The owner or occupier shall not permit the service-pipe, including the items referred to in clauses (a) and (b) of rule 4 or any part thereof to be altered, removed or interfered with by any person other than an authorised representative of the Commissioners, who shall be empowered by the Commissioners to alter or adjust the service-pipe as may from time to time be necessary for the maintenance of the requisite flow of water.

8. The tank referred to in rule 4 (b) shall be durable and water-tight, and the ball-valve and the other fittings shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them at a meeting. The storage tank or tanks shall be cleaned and sterilized quarterly at the expense of the owner or occupier under the supervision of an officer of the municipality.

9. Every storage tank shall be fitted with an over-flow pipe, the end of which shall project over the wall of the house and shall be placed in a conspicuous position. Discharge of water from the over-flow-pipe means that the ball-valve is failing to function, and the owner or occupier shall notify the waterworks officers every time he finds such discharge occurring.

10. Every owner or occupier of any holding, in respect of which a connection has been made under these rules, shall be entitled to supply of water corresponding to the annual valuation of such holding, according to the following table:—

Annual valuation of the holding.		Gallons of water per day to which entitled.	
from Rs.	to Rs.

1201	1320	...	330

For holdings with annual valuation above Rs. 1,320 the daily quantity of water (in gallon) will be calculated as the valuation divided by 4.

11. In case the owner or occupier requires for a special occasion or for any other purpose more water than the amount to which he is entitled according to rule 10, he may apply to the Commissioners in form B (obtainable at the municipal office free of charge) for a temporary connection. He shall pay in advance the sum of Rs. 10 per tank, and also shall pay weekly the following charges during the whole time he retains the temporary connection:—

- (a) For a supply of 200 gallons per day—Annas 8 per day.
- (b) For a supply of 300 gallons per day—Annas 12 per day.

- (e) For a supply of 750 gallons per day—Re. 1-8 per day.
- (f) For a supply of 900 gallons per day—Re. 1-12 per day.
- (g) For a supply of 1,100 gallons per day—Rs. 2 per day.

He shall state in his application the number of weeks for which the connection is required.

12. On receipt of the application, together with the fees as provided in rule 11, the Commissioners shall forthwith instal within the compound and at a level of two feet above ground an additional storage tank (or tanks) of 300 gallons capacity with ball-valve and two taps fixed to each tank. They shall connect the same to the street main by a service-pipe or pipes, and do all other work necessary to commence and maintain the supply.

The Commissioners shall keep in stock a number of tanks, with pipes, fittings, etc., for the above purpose.

13. The payment referred to in rule 11 shall be made once a week. In case the owner or occupier fails to make the payment weekly, the Commissioners or their officers may at once stop the supply of water and remove the storage tank or tanks, temporary service-pipe, etc.

14. Two or more such temporary connections may be taken, if required, on payment of additional costs and weekly charges.

15. The Commissioners may cut off the connection between any waterworks of the Commissioners and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, viz.—

- (a) if the holding is unoccupied;
- (b) if the occupier fails to pay his water rate;
- (c) if the occupier in any way interferes with, damages or alters the service-pipe; and
- (d) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection of the service-pipe or storage tank, or prevents such officer from making such examination or inspection;

Provided that twenty-four hours' notice in writing of such examination or inspection may be demanded.

16. The works required under rule 4(b) shall be carried out by a person or firm employed by owner or occupier and approved by the Commissioners. For this purpose the Commissioners shall grant licenses to approved persons or firms, who should preferably have had previous experience in plumbing work.

17. No connection shall be permitted to any holding unless and until the owner or occupier makes effective provision to the satisfaction of the Commissioners for draining away all waste water.

18. The Commissioners will not be responsible for any interruption or diminution of water-supply due to occurrences beyond their control.

Rule.

When the military service of an officer is classified as inferior under the provisions of Article 357, Civil Service Regulations, so much of it as was rendered after attaining the age of 16 years may be allowed to count for the purpose of a civil pension under the provisions of Article 356, Civil Service Regulations.

(4) “reduced pay” means pay or leave salary as defined in clauses (2) and (3) less any reduction made under these rules;

(5) “leave on average pay” means—

(i) in the case of Government servants subject to the Civil Service Regulations—

(a) privilege leave,

(b) furlough on leave allowance equal to full average salary or leave salary as limited under Articles 316A and 325A,

(ii) in the case of other Government servants, leave on average pay or leave on leave salary equal to average pay, the term “average pay” being used in the sense in which it is used in the Fundamental Rules.

3. Subject to the conditions and exceptions hereinafter provided, the pay and/or leave salary admissible to a Government servant in respect of duty performed or leave consumed, as the case may be, after the 31st March 1934 and before the 1st April 1935 shall be reduced by 5 per cent.

4. Nothing in rule 3 shall—

- (6) a Government servant to whom a rate prescribed in Schedule I of the Bengal Services (Revision of Pay) Rules, 1934, is applicable:

provided that no such Government servant shall draw more pay or leave salary than that which would have been admissible to him under rule 3 or rule 5, had neither Finance Department Resolution No. 3219F., dated the 7th August 1931, nor the Bengal Services (Revision of Pay) Rules, 1934, been issued;

5. Notwithstanding anything in rule 3, when the amount of pay or leave salary liable to reduction under these rules is more than Rs. 40 and less than Rs. 50 it shall be reduced by one-fourth of the amount by which it exceeds Rs. 40.

8. In cases in which the amount of any payment or instalment of payment due by a Government servant to Government is required to be calculated on the amount of his pay or leave salary the calculation shall be made on his reduced pay and not on his pay or leave salary, as the case may be.

Example.—The maximum rent payable by a Government servant for a residence owned by Government shall be 10 per cent. of his reduced pay.

9. In cases not covered by rule 7 in which the amount of a payment due by Government to a Government servant is required to be calculated on the amount of his pay or leave salary, the amount shall be calculated either—

(a) on his pay or leave salary, as the case may be, or

(b) on his reduced pay,

whichever calculation is more favourable to the Government servant.

Examples.

(1) A town allowance consisting of a percentage of pay shall be calculated on pay.

No. 1.—In exercise of the powers conferred by sections 10 and 11 of the Sugar (Excise Duty) Act, 1934 (XIV of 1934), the Governor General in Council is pleased to apply in the adapted form set out below certain provisions of the Sea Customs Act, 1878 (VIII of 1878), and to make certain rules for the purpose of providing for the assessment and collection of the duty imposed by the first-mentioned Act.

CHAPTER I.

Provided that no officer of the Customs, Salt or Income-tax Department shall be appointed by the Collector to be an Inspecting Officer without the previous approval of the Central Board of Revenue;

(iv) "Duty" means the duty payable under section 3 of the Act.

CHAPTER II.

4. Every owner of a factory shall keep a correct daily account in Form A appended to this Order. Separate accounts shall be kept for (a) sugar other than khandsari sugar or palmyra sugar, (b) khandsari sugar, and (c) palmyra sugar.

5. Within five days after the close of each month, every owner of a factory shall submit to the Collector a monthly return in Form B appended to this Order showing the quantity of sugar issued from the premises of the factory or used within the said premises for the manufacture of any commodity other than sugar during that month. Separate returns shall be filed for (a) sugar other than khand-sari sugar or palmyra sugar, (b) khand-sari sugar, and (c) palmyra sugar.

6. On receipt of the return referred to in Clause 5, the Collector shall, after verification of the return of exports, if any, to places outside India and such other enquiry as he may deem fit, assess the duty payable on sugar removed from the factory or used within its premises for the manufacture of any commodity other than sugar. If the owner of a factory fails to submit a return the Collector may make a summary assessment on such information as may be available. The amount assessed shall be communicated to the owner of a factory who shall pay it into the Treasury by the end of the month following that for which the return was required to be made.

7. The Collector or Inspecting Officer may enter the premises of any owner of a factory and inspect the building, the machinery, the stocks and the accounts and may at any time check the correctness of the records made of removals of sugar from the factory or their transfer within the factory to that part of the premises (if any) in which it is to be used for the manufacture of any commodity other than sugar.

8. Any owner of a factory who fails to keep a correct daily account or refuses to permit any authorized officer to enter his premises and inspect the building, machinery, stocks and accounts shall be punishable with imprisonment which may extend to six months or with fine which may extend to one thousand rupees or with both.

CHAPTER IV.

Refunds and Remission.

9. Any person who exports from British India to any place outside India sugar on which duty has been paid under the Act, shall, on production of satisfactory evidence before the Collector that the sugar has been so exported and that the duty has been paid in respect of such sugar, receive a refund of that duty. If the exporter is the owner of the factory in which the sugar was produced, such refund may, at the discretion of the Collector, be paid in cash or by set off against duty due from the owner of the factory.

10. The Governor General in Council may, by notification in the Gazette of India, exempt any sugar from the whole or any part of the duty leviable thereon.

CHAPTER V.

Provided further that no order in revision shall be passed having an effect more prejudicial to the person concerned than the order under revision without such person being given an opportunity of stating his case.

13. No appeal under Clause 11 shall be admitted unless received by the appellate authority within three months of the date of the Collector's order.

14. The Local Government may empower any officers of any department under its control to search any place, vessel, cart or means of conveyance for sugar liable to duty and to seize and remove or detain any sugar which may appear to them to have been illegally imported or manufactured.

or, when any such duty after having been levied has been, owing to any such cause, erroneously refunded,

the person chargeable with the duty so short-levied, or to whom such refund has erroneously been made, shall pay the deficiency or repay the amount paid to him in excess, on demand being made within three months from the close of the month in respect of which the duty shall have been levied or from the date of making the refund.

SUPPLEMENT.

Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 2nd May 1934.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1933-34.

(*Note.*—On an average of the five years ending 1931-32, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·0 per cent. of the total areas under these crops in British India.)

Character of the season.—Since the issue of the second forecast some damage was done to the crops by hailstorm and insect pests, especially in some north and east Bengal districts, resulting in slight decrease in outturn. On the whole, a satisfactory outturn was reaped for the province.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 860,800 acres this year as against 885,200 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 83 per cent. of the normal as against 77 per cent. last year.

Taking 7 3/8ths maunds as the normal rate of yield per acre for linseed, 7 3/5ths maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 194,000 tons this year as against 184,700 tons last year.

Dacca, the 3rd May 1934.

**Final Forecast of the Wheat Crop of Bengal,
1933-34.**

(Note.—On an average of the five years ending 1931-32, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1931-32, averaged (a) 39·5 and (b) 11·0 per cent., respectively.)

Character of the season.—Since the issue of the third forecast in April last, conditions have remained practically unchanged and a fairly satisfactory crop was harvested for the province.

Acreage.—According to District Officers' estimates, the total area sown is 145,500 acres this year as against 142,900 acres last year.

Outturn.—The provincial outturn as worked out from the district estimate is 76 per cent. of the normal as against 78 per cent. last year. Taking the normal yield to be 10 maunds per acre, the gross yield of the crop for the province is estimated at 40,600 tons this year as against 40,900 tons last year.

At the end of April the wholesale price of wheat in the Calcutta mart was Rs. 3·4 per maund or about 2 per cent. lower than the price ruling at the corresponding period of last year. The price of common rice at Calcutta, on the other hand, was Rs. 4 per maund or about 23 per cent. higher than last year.

Resolution on the Report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1933.

GOVERNMENT OF BENGAL.

Agriculture and Industries Department.

Co-operative.

DARJEELING, THE 28TH APRIL 1934.

RESOLUTION—No. 75T.A.I.

Minister-in-charge: The Hon'ble Nawab K. G. M. Faruqi, Khan Bahadur.

Read—

The Report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1933.

Rai S. K. Ganguly Bahadur was in charge of the department till the 30th December 1932, when he went on leave and was relieved by Khan Bahadur A. M. Arshad Ali. The superior staff of the department consisted as before of five Assistant Registrars but the post of Personal Assistant was left vacant during the last part of the year.

2. The continued economic depression imposed upon the co-operative movement a further severe test during the year under review. To meet the situation and to minimise the strain upon the machine Government were obliged to direct attention to the consolidation rather than the expansion of the movement. Accordingly the organisation of new societies was practically stopped, while the attention of the department was concentrated on the task of improving the working of the existing societies, of reconstituting bad societies and liquidating the hopeless ones. As a result, the total number of societies of all classes fell from 23,777 to 23,667, *i.e.*, by 4 per cent. as against an increase to that extent in the preceding year. The decrease occurred mainly among "Agricultural Credit Societies," which have been specially

hit by the prolonged depression. It is reassuring to observe that the members of these societies were encouraged to take to the cultivation of subsidiary crops and to subsidiary occupations and with the proceeds to make monthly payments of interest. This system is being widely adopted with promising results. The system of collection was elaborated and amplified, and all possible assistance was rendered by the departmental officers to the societies in collecting their heavy outstandings. In spite, however, of all efforts there was a considerable rise in overdues owing to the prolonged slump in the prices of agricultural produce, which has inevitably affected the repaying capacity of the primary borrowers. To meet the dangers involved in this position the special enquiries described in paragraph 12 of the report were undertaken with a view to furnishing the Central Banks with the information required to enable them to handle their resources to the best advantage.

3. The experience of recent years has emphasized the fact that it is undesirable for the ordinary credit society, which is mostly financed through short-term deposits, to lock up its funds in long-term loans. Accordingly the question of the establishment of *ad hoc* banks for the provision of loans for long periods and on easy terms to agriculturists engaged the attention of Government during the year. It has now been decided to establish five land-mortgage banks on a co-operative basis at selected centres in the province. The capital required by these banks will be raised by the issue of debentures by the Bengal Provincial Co-operative Bank. Government have agreed to guarantee the interest on the debentures to the extent of 12½ lakhs of rupees for the entire period of their currency. Government have also undertaken to furnish these banks for the first three years with such financial assistance as may be required to enable them to work without loss.

4. The Bengal Provincial Co-operative Bank has maintained its position through the year and has added to its reserves. It kept adequate fluid resources and had no occasion to open the cash credit of Rs. 30 lakhs with the Imperial Bank of India which had been guaranteed by Government in 1931. Similarly, though the standard of management varied greatly, many of the Central Banks showed excellent

results on the year, and none of them was unable to continue working. There is little doubt that the difficulties of the last few years have tested all banks and societies to the utmost, and have forced those responsible for the survivors to organise their work on lines which will leave them ready to go ahead when prosperity returns.

5. The Hon'ble Minister is pleased to note that the non-agricultural credit societies generally continue in a healthy state in spite of the prevailing economic depression. These societies have a total working capital of Rs. 3.54 crores, as against Rs. 5.69 crores of the agricultural credit societies, and they are doing very useful work among the poorer middle classes of the urban population, who are able to appreciate, and to make the most of, the co-operative principle. An interesting group in this section is that of the depressed class societies, e.g., among municipal sweepers. These societies deserve all encouragement as they have been instrumental not only in extending easy

credit facilities to their members but also in promoting thrift, better living and temperance.

6. The Government of Bengal (Ministry of Agriculture) have great pleasure in acknowledging the assistance rendered to the movement by the various District and Subdivisional Officers mentioned by the Registrar and by all non-official gentlemen connected with the movement. The thanks of Government are due to Rai Bahadur S. K. Ganguly and Khan Bahadur A. M. Arshad Ali for the way in which they discharged their duties during another year of stress and anxiety. The Hon'ble Minister also notices with pleasure the good work done by the departmental officers mentioned by the Registrar.

By order of the Govt. of Bengal
(Ministry of Agriculture),

J. D. V. HODGE,

Secy. to the Govt. of Bengal (offg.).

6. Every owner or occupier of a house shall, if so required by any Magistrate, military officer or police officer, supply any information regarding the inmates of the house and, if the District Magistrate by special or general order in writing so directs, shall supply without delay to any police officer specified in such order such information regarding persons arriving at or leaving the house as may be required in such order.

7. Every military officer and every police officer not below the rank of an assistant sub-inspector or, in the case of the Eastern Frontier Rifles and Assam Rifles, of a jamadar, shall have the power to intercept telegrams, telephone messages, letters, postcards and parcels whenever he considers it to be necessary for the purpose of preventing communication with an absconder or for the purpose of securing the safety of His Majesty's forces or police.

Chittagong.—No. 376P.D.—14th May 1934.

24-Parganas. — No. 1190P.H.—18th May 1934.—In exercise of the power conferred by section 311 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Government of Bengal (Ministry of Public Health) are pleased to make the following rules for the regulation for the supply of filtered water to private premises in the South Dum Dum Municipality, in the district of the 24-Parganas, for domestic purposes only:—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of any holding paying water-rate imposed under the provisions of Chapter V of the Bengal Municipal Act, 1932, on the annual value of such holding when such annual value is not less than Rs. 200, to lay down communication-pipes from the service-pipes or from the mains passing through the jurisdiction of their municipality for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied free of cost at the municipal office.

2. A fee of Rs. 100 must be paid to the Commissioners by such owner or occupier for each connection to a main supply pipe or a common communication-pipe laid in accordance with rule 3 before any work is commenced; such fee to be in addition to all other costs and charges imposed under these rules.

3. Except as provided below each holding must have a separate connection, and extension from the communication-pipe of one holding to another holding shall not be permitted:

Provided that with the consent of the Commissioners at a meeting connection to two or more holdings may be permitted for a common communication-pipe. Any such communication-pipe must be laid in a road, lane or common passage, and a stop-cock and meter as provided for in rule 7 must be fixed on the connection to each holding:

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alteration in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a municipal officer.

7. A holding connection shall comprise the following parts or fittings:—

- (a) a brass or gun-metal ferrule inserted in the main supply-pipe;
- (b) a galvanized iron communication-pipe from the ferrule to the meter;
- (c) a stop-cock and its surface box
- (d) a meter;
- (e) service-pipes from the stop-cock to the taps; and
- (f) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved of by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard pattern, he must present such fitting for the approval of the Chairman, and any fittings, so presented, may, if considered satisfactory by the Chairman, be stamped and samples thereof may be purchased and placed among the standard fittings.

9. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

	Annual valuation of holding.		Size of ferrule.	Diameter of communication-pipe.	Number of taps.
	Rs.	Rs.	Inch.	Inch.	
From	200 to	500	$\frac{1}{2}$	$\frac{1}{2}$	1 tap.
"	600 to	1,100	$\frac{3}{4}$	$\frac{3}{4}$	2 taps.
"	1,200 to	2,300	$\frac{7}{16}$	$\frac{1}{2}$	3 "
"	2,400 and over		$\frac{1}{2}$	$\frac{1}{2}$	4 "

Provided that the Commissioners may, for special reasons, on the application of the owner or occupier of a holding of an annual value of Rs. 6,000 or more, allow the following:—

Size of ferrule.	Diameter of communication-pipe.	Number of taps.
Not more than 1 inch	1 inch	4

10. The holding connection when fitted in position, must be capable of standing a pressure of 150 feet, and no water shall be supplied until this test has been applied by the Commissioners.

11. (1) On every communication-pipe a brass or gun-metal stop-cock, having the same water-way as such pipe, shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the building may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter shall be built or fixed in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of the box shall remain under the control of the Chairman.

(3) Subject to the provisions of rule 13, no meter must be touched or interfered with in any way except with the permission of the Chairman.

(4) Neither the stop-cock nor the meter must be placed in any private premises.

13. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

14. In the event of a meter ceasing to register, the quantity of water consumed during the period the meter had stopped to register shall be calculated on the basis of the average consumption of water of the holding for the last four quarters.

15. (a) Every owner or occupier of any holding, in respect of which a connection has been made, under these rules, shall be entitled to a supply of 1,150 gallons of water per quarter for each rupee paid by him for the premises in water-tax.

(b) For all water in excess of the amount allowed under clause (a), such owner or occupier shall be charged at the rate of Re. 1-4 per 1,000 gallons.

16. If the owner or occupier of any holding which is supplied with water under these rules shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a period of fourteen days after he has been served with a notice of demand for the same, the Commissioners may at any

time after the expiration of that period and without any further notice, disconnect any pipe forming part of the connection made in respect of such holding and may recover the cost of disconnecting such pipe from such owner or occupier:

Provided that the disconnection of such pipe shall not relieve any person from any liabilities which he may have incurred under these rules.

17. Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as "screw down." Every tap shall be at least three feet above the surface of the ground beneath.

18. The municipality will not be held responsible for any cessation or disconnection of water to private or public pipes for causes beyond its control.

19. Rule No. 1, so far as it relates to addition or alteration to an existing water supply, and rules Nos. 2, 5, 13, 14, 15, 16 and 18 shall, notwithstanding anything contained herein, apply to connections given prior to the issue of these rules.

20.
